

THE VERNON RECORD

Semi-Weekly—Tuesdays and Fridays

VOLUME 13.

VERNON, WILBARGER COUNTY, TEXAS, FRIDAY, JUNE 3, 1921

NUMBER 41

MOTOR TRUCK LAW TO BE ENFORCED BEGINNING JUNE 12

Measure Imposes Somewhat Stringent Regulations On Vehicles for Hauling—Regulates Load and Speed of Each Truck—Assesses Tax Bases On Mileage Covered Outside Towns.

Motor trucks in Texas will be brought under the effects of a somewhat stringent law which becomes effective June 12. The measure was passed at the last session of the legislature and not merely increases the license fee for such vehicles, but imposes in addition a mileage tax based on the hauling capacity of the truck. The revenue from this will be devoted to the road and bridge funds of the respective counties. This tax applies only to travel outside the corporate limits of the city. The present license fees for heavy freight carrying passengers for hire are considered wholly inadequate to compensate for damages done to the public highways.

In brief, the law is one providing for and increasing the annual license fee on commercial vehicles; providing for applications for registration, how and when said applications shall be made; defining a commercial motor vehicle; naming the net carrying capacity of such vehicles and the annual license fees to be charged in each instance; providing for annual license fee for trailers and semi-trailers and tractors; providing for fees to be paid on certain motor buses; providing penalties for failure to comply with provisions of this act; providing that the provisions of this act shall not apply to tractors used for agricultural purposes and road building; providing methods of determining horse power of certain vehicles; providing basis of weight and how to settle disputed classifications; providing certain described vehicles shall not be licensed or operated on public roads; providing for exceptions and special permits; and providing that liability shall attach for damages to highways and bridges in certain instances. It is one also providing for the registration of commercial motor vehicles and trailers operating over highways in this State in one or more counties; providing for keeping of records by owner of commercial motor vehicle, showing miles traveled in each county and report thereof, and providing speed limit per hour for vehicles of certain maximum weight when equipped with pneumatic tires and when equipped with solid tires; providing for use of governors on commercial motor vehicles; providing fee per mile for net carrying capacity in pounds of each stated vehicle and providing for division and distribution of mileage fees among certain counties.

Must File Application.
In order to provide funds to effectuate the provisions of this act on and after January 1, 1922 and annually thereafter on and after the first day of January, every owner of a motor vehicle, or trailer or semi-trailer or motorcycle in this State shall file in the office of the county collector of the county in which he resides or in which the vehicle he owns is being operated, an application for the registration of each motor vehicle or motorcycle owned or controlled by him. Applications shall state whether the vehicle is for operation in one or more counties. Each application shall be accompanied by the requisite fee for the number of unexpired quarters of the calendar year, which fee for the registration of a motorcycle shall be three dollars, and for the registration of a motor vehicle, except these hereinafter designated as commercial motor vehicles, shall be thirty-five cents per horsepower.

Tax For Equipment and Weight.
A commercial motor vehicle is designated as one with a net carrying capacity of more than one ton intended, designed or used for the transportation of property. For each commercial motor vehicle the annual license fee shall be based upon the net carrying capacity of the vehicle as follows:

Net carrying capacity in pounds	Annual license fee
2001-4000	\$30
4001-6000	\$50
6001-8000	\$80
8001-10,000	\$120

For each trailer or semi-trailer, the annual license fee shall be based upon

EARL OF MINTO CARRIES BRIDE INTO NEW HOME.

The Earl of Minto, who was married in Montreal, Canada, recently to Miss Marion Cook of Montreal, took his wife to his ancestral home in England and followed out the old custom which decrees that a bridegroom must carry his bride over the threshold of her new home. The custom is said to be a relic of the runaway marriages of olden times. The photo shows Lord Minto carrying the new Lady Minto into the house.

274 MORE SCHOOL PUPILS IN COUNTY

SCHOLASTIC CENSUS TOTAL IS 4,823 WITH 1,513 IN VERNON.

An increase of 274 is shown in boys and girls of school age in Wilbarger county over last year in the report which County Superintendent J. N. Fletcher is forwarding to the Superintendent of Public Instruction in Austin. The census shows 4,823 scholars.

Vernon has 1,513 scholars, 719 being white boys, 762 white girls, twenty negro boys and twelve negro girls. One hundred sixty-five scholars are credited to Odell, sixty-nine being white boys, ninety-four white girls and two negro boys. There are eighty-four white boys and ninety-four white girls in Harrold.

Schools in Wilbarger county, including independent districts with not to exceed 150 pupils, have a total of 1,546 white boys, 1,375 white girls, twenty-six negro boys and twenty negro girls. Following is a report by school districts:

Undergoes Appendicitis Operation.
Miss Lillian Martin living at 807 West Wanderer Street was operated upon Tuesday for acute appendicitis. Her condition is reported as satisfactory.

Boy to Box Couple.
A boy was born Saturday, May 28 to Mr. and Mrs. John Box living twenty miles southwest of Vernon.

SCHOOLS TO PLAY DOUBLE HEADER

EACH GAME THIS AFTERNOON WILL LAST SEVEN INNINGS.

Vernon high school will meet North Fort Worth high school this afternoon in baseball at the fairgrounds in a double header, the first contest to start at 4 o'clock, according to a decision of the coaches made this morning. This alteration was made to better suit the convenience of both teams. Each game will last seven innings.

Baird, local southpaw, will in all probability pitch both games for Vernon, and Tarpley, captain elect of North Fort Worth and star twirler, will doubtless go the entire distance for the visitors. Tarpley is the lad who pitched in the game the locals lost to Fort Worth last week.

Teams In Good Condition.
Vernon has had but little practice this week, but according to Coach Winston, the men are in good condition. The games today will be the last of the season, win or lose for Vernon, and the Tarrant county team has no further games scheduled for the remainder of the season. According to A. J. Speece, Fort Worth coach, in the event Vernon is beaten this afternoon, he will run a challenge in a Fort Worth paper embracing all Texas and will play any team which has an unqualified right to be considered a title contender. North Fort Worth has played no games since the Vernon contest in that city last week, and the players are in best of condition. The first game, this afternoon will be the fourteenth of the season for Fort Worth. Thus far the visitors have lost but one game, having been defeated by Denton at that town.

The Fort Worth team arrived this morning. Lineups this afternoon will be as follows:

North Ft. Worth	Vernon
Joe Tarpley, 2b	Small, cf
Rosser, 1b	Larrimore, 3b
Holland, ss. (capt.)	Curtis, c
Washmon, c	Smith, 2b
Wolfe, lf	Delmasso, ss
Clayton, cf	Cabe, 1b
Clark, 3 b	Parr, rf
Hull, rf	Hiatt lf
Jack Tarpley, p	Baird p
Substitutes—Fort Worth: Hayes, Finney, Swallow.	

Umpires this afternoon will be Lismann and Murchison.

Vernon Defeats Chillicothe.
The Vernon town baseball team yesterday defeated Chillicothe in a game at the latter town 8 to 4. The locals held their opponents to no scores until the sixth inning, when Chillicothe got three hits and four runs, the Vernon team making two errors. Vernon got twelve hits in the game. The lineup for Vernon was Gilliland, catcher; Johnson, pitcher; Ladd, first base; Carney, second base; Foster, shortstop; H. Teal, third base; Howard, left field; Carrington, center field; Castleberry, left field.

WILL NOT SANCTION FINANCIAL DRIVES OF OUTSIDE ORDERS

Local Commercial Organization Is Of Opinion That Vernon Business Men Have Been Too Heavily Called Upon—Ministers Ask That Foreign Donations Be Through Churches.

The activities of organizers and promoters of drive organizations outside of Vernon will henceforth not be sanctioned by the local Chamber of Commerce, according to an announcement of the manager yesterday. The commercial body will take the position that if individuals in Vernon care to make donations to the funds to be raised they may do so at their own volition, but the projects will receive no sanction from the Chamber.

This decision was made because of the efforts of an individual, representing himself as a State agent for the China Famine Fund, who yesterday attempted to organize Vernon in order to make a drive. He officers of the Chamber of Commerce were sought in order to stimulate the campaign, and when these were refused the promoter became highly indignant.

Too Many Campaigns.

He was informed that the local business men have been "driven to death," that besides being called upon to contribute to funds raised in their immediate community they have been the objects for solicitation from every imaginable charitable organization. It was pointed out that Hon. Long, assisted by a letter from the Chamber of Commerce, had canvassed several times local business houses for contributions to the famine fund, and that the efforts of the Celestial, together with donations from the local Baptist and Christian churches had resulted in a fund of approximately \$600.

A meeting of the local ministerial association was called Thursday at 1 p. m. and considered the plans of the promoter. It was decided by the ministers that if local persons cared to donate to the relief fund, it would preferably be through the missionary channels of the various churches.

BILLY K. NORWOOD WEDS.

Former Vernon Boy Is Married In Altus, Oklahoma and Will Live In Lawton.

William K. Norwood and Miss Gertrude Tate of Altus, Okla., were married in Mangum, Okla., Sunday, according to advice from Altus. The young couple will live in Lawton.

Billy K. Norwood is a son of Mr. and Mrs. H. W. Norwood of Vernon, and for some time was employed with The Record. His wedding was a surprise to friends here. Concerning that happy event, the following is taken from the Altus Times-Democrat:

Mr. Norwood was formerly employed in the mechanical department of the Times-Democrat, resigning last Saturday to take up his new "duties." He never even told the boss what he planned to do and kept all of us in the dark. No doubt being a little excited—like nearly all of the fellows are, and for some reason of which we are unable to solve—bought his license here at the court clerk's office and journeyed over to the fair city of Mangum where he handed over the license to the minister, but Norwood, like other must obey the law—the law being that you must purchase the license in the county where you marry—was forced to buy another marriage license at the court clerk's office in Mangum.

The bride resided west of town for a number of years, is a charming personality and has a host of friends who will be pleased to hear of her marriage.

NEARLY 800 MEMBERS IN COUNTY FARM BUREAU

Close to 800 members have been obtained for the Wilbarger county farm bureau, according to R. D. Jones, local director of the campaign. The past week has been devoted to organizing local bureaus. Saturday at 2 p. m. a meeting will be held in the district court room for the purpose of electing county officers.

The bureau team that has been working in this county will go to Collinsworth county from here. From there it will go to Childress.

Cemetery Association to Meet.

The Cemetery Association will meet at 4 o'clock Tuesday afternoon in the auditorium of the Library building.

VERNON'S BATTERY THIS AFTERNOON.

Wallace Baird and Esker Curtis, who have been the mainstays of the local team during this baseball season. Baird is a left hander and has pitched consistent ball in every game in which he has worked this season. Last week, against the strong Abilene team, he allowed but two hits and struck out sixteen men, winning the game 2 to 1. Curtis is an exceptional player for a high school team, is captain of the local aggregation, possesses a fine throwing arm, and is a conscientious, heady player.

MANY TOWNS HAVE NEW COMMANDERY

CHARTERS WERE DELIVERED THIS WEEK TO DALHART, STAMFORD AND SPUR.

Right Eminent Sir Livingston Gardner Hawkins of Vernon is constituting new commanderies of the Masonic Lodge this week at Bowle, Childress and Seymour. He is also delivering charters to the commanderies recently established at Dalhart, Stamford and Spur.

Mr. Hawkins is accompanied by Right Eminent Sir J. C. Kidd of Houston, Grand Recorder of the Masonic Lodge for Texas. Mr. Hawkins is Grand Commander of the Grand Commandery, Knights Templar of Texas. He is devoting a great portion of his time to the interests of the Order of which he is such an enthusiastic member.

LITTLE WEEKLY GIRL DIES.

Child's Death Comes a Few Hours After Condition Takes Turn For the Worse.

Willie Mae Weekley, 10 year old daughter of Mr. and Mrs. Verna Weekley living about twelve miles southwest of Vernon, died Tuesday noon at her home after a short illness. The little girl had not felt well since Sunday, but her condition took a turn for the worse only the morning of the day she died. Her death is attributed to diphtheria.

Willie Mae was an exceptionally bright and animated child, and her sudden death came as a hard blow to her parents and friends of the family. She would have been 11 years old June 11, and attended the Kincheol school. The little girl appeared in the piano recital of Miss Edith McCarroll's pupils Thursday, May 26, at the Methodist Church, and took her last music lesson the following Saturday. She is said to have swallowed a piece of ice Sunday and became slightly ill afterwards.

Funeral services for the child were conducted from the home of Morris Bonner in Vernon and Rev. R. V. Tooley of Tolbert officiated. Burial was in East View Cemetery. The girl was the oldest of three children.

Compliment Local Merchants.

The financial status of local merchants in regard to prompt settlement with the U. S. Government for luxury and war taxes is above the average for a town of this size, according to Federal revenue collectors here this week. There are few delinquents on the Vernon list, it was said, and the town is exceptionally good financial shape. Local business men were complimented for their prompt and honest reports.

P. M. Word Is Telephone Manager.

P. M. Word of Fort Worth is manager of the local office of the Southwestern Telephone Company. He succeeds E. L. Childress, who left Wednesday for Cleburne. Mr. Word does not expect to be in Vernon permanently.

Infant Has Broken Arm.

The two years old daughter of Mr. and Mrs. J. A. Simmons living on S. Bowie St. suffered a broken arm early in the week when she fell from a high chair. The little girl is improving rapidly.

PHOEBE K. WARNER WILL SPEAK HERE

WRITER FOR STAR-TELEGRAM WILL MEET WITH CLUB WOMEN SATURDAY.

Mrs. Phoebe K. Warner of Claud, special writer for the Fort Worth Star-Telegram, will make a talk on "A One Hundred Per Cent County," at the meeting to be held by the Wilbarger County Federation of Women's Clubs in the Central Christian Church at 3 o'clock Saturday afternoon. Mrs. Warner is state chairman of rural work for the Federated Clubs of Texas and her talk will be along these lines. All the women in this county are invited to be present at the meeting Saturday afternoon to hear her and the others who will speak at that time.

Word has just been received from Mrs. C. H. Newby, of Agift, saying that she will speak, in behalf of the other visiting club members, in response to the address of welcome which will be made by Mrs. J. E. Collins. None other of the invited from out of town have been heard from but it is expected that there will be several here beside Mrs. Warner and Mrs. Newby.

A reception will be given for the visiting and all Wilbarger County club women Saturday night at the home of Mrs. Harry Mason.

GEORGIA INSURANCE MAN HERE.

William May, Superintendent of Farm Department of The Royal, Visits Old Me.

William May, superintendent of the Farm Department of The Royal Insurance Company of Liverpool, was in Vernon Wednesday, the guest of C. S. McColloch, local representative of the company. He was accompanied by W. W. Wright of Dallas, special agent for Texas.

Mr. May's home is in Atlanta, Ga. Conditions in Georgia, he says, are about like they are in Texas. Georgians are beginning to diversify, growing a great deal of fruit, melons, and much live stock—all of which Mr. May thinks is greatly to the advantage of the commonwealth.

FARM PAPER LOANS MONEY TO BOY FOR BUYING PIG

Elden Davis of Route 4, Vernon, is striving to help make Wilbarger county the home of fine hogs. He is being aided in this by E. T. Meredith, publisher of Successful Farming, of Des Moines, Iowa.

Successful Farming has adopted a plan whereby any boy or girl can secure a loan of \$15 to \$25 for buying a calf, pig, poultry, sheep, or to grow some crop. Elden borrowed \$25, and in a letter to Successful Farming says: "I received your check about a week ago, and had already gotten my pig on the strength of it about a week before. It is a big bone Poland China and cost \$25. It was two months old and weighed 41 pounds. I have not taken a picture of my pig and me yet but will do so later and send you one. I thank you very much for your loan."

Mr. Meredith has helped 6,436 boys and girls to become owners of stock or to raise a crop.

Thalia Resident Undergoes Operation.

Mrs. J. C. Lawhorn of Thalia underwent an operation in Vernon for Appendicitis Monday. She is reported as doing well.

J. T. FOSTER MADE PRINCIPAL OF THE LOCAL HIGH SCHOOL

Is Graduate of Chicago University and Has Had Six Years Experience in School Leadership—A. F. Winston Made Instructor in Science and Coach of Athletics.

J. T. Foster, principal last year of the Frederick, Oklahoma, high school, this morning was elected by the local school board to the principalship of the Vernon high school. Mr. Foster is a graduate of Chicago University, and has had six years' experience as principal of schools. He will return this summer to Chicago to get a master's degree. He will teach mathematics in the local high school. Mr. Foster is a native of Mississippi.

A. F. Winston was elected head of the science department and athletic coach for the local high school, and announced this morning that he would accept the place. At present Mr. Winston is connected with the Renfro Hardware Company, and is coach of Vernon high's pennant contending baseball team. He has had considerable experience as a teacher, serving here in that capacity in 1915-1916, and resigning a tendered principalship to go to San Marcos Baptist Academy as coach and instructor in 1916-1917. He was dean of Wayland College 1917-1918, and held the principalship of the Cripple Creek, Colo., high school from 1918 to 1920. Mr. Winston will teach physics and chemistry. He is a graduate of Colorado College.

Want Grounds Beautified.

Further business at the school board meeting dealt with the issuance of instructions to the city superintendent to cooperate to the fullest extent with the local Parent-Teachers' Association toward putting the local school grounds in the best condition possible. This will consist of sowing grass, filling up washed places, and making the premises as attractive as possible. The city will be asked to remove rock that has been dumped on the grounds of the Shive school.

It was brought out at the meeting that there is no room in the present high school building for manual training, home economics, nor domestic science departments. A suggestion was offered to construct shacks on the grounds to be utilized for these departments, but this project was voted down. Board members do not consider the issuance of bonds advisable at this time.

J. A. Birdsong, newly appointed school member, to take the place of E. M. Rogers, took the oath of office this morning.

WEDS CROWELL MAN.

Miss Mary Louise Garrett and Jess E. Davis Are United At Bride's Home Sunday Afternoon.

Miss Mary Louise Garrett, daughter of Mr. and Mrs. James Garrett, and Jess E. Davis of Crowell were married Sunday afternoon at 2 o'clock at the home of the bride's parents on West Wanderer Street. Only a few immediate relatives were present at the ceremony which was performed by Rev. W. T. Rouse. The young couple left immediately for Crowell to make their home.

Mrs. Davis has lived in Vernon two years, coming here with her parents from Crowell. She was born at Tulsa, and her parents are planning to remove there in the near future. The bride attended school in Crowell and was graduated from the high school at that place. After coming to Vernon she was in the employ of The Vernon Record for several months. She was a student last year in the College of Industrial Arts at Denton.

Mr. Davis is in the grain business at Crowell. He served overseas with the American Expeditionary Forces during the World War.

Mrs. J. H. Hansen Dies.

Mrs. J. H. Hansen, formerly a resident of Vernon, died at her home in Walters, Okla., and was buried in Granfield, Okla., today, according to word received by friends in this city yesterday. Mrs. Hansen and her husband, Dr. Hansen, lived in Vernon for a number of years, having moved from here to Oklahoma about twelve years ago. The latter has been dead three years. Mrs. Hansen is survived by six children, four of whom are married.

DISCUSS RATES FOR PUBLIC UTILITIES

COMMITTEE OF BUSINESS MEN PRESENT DATA TO CITY COMMISSIONERS.

An informal discussion was held Tuesday afternoon before city commissioners by R. L. More, Frank Masie, and the manager of the Chamber of Commerce on rates for electric lights, telephones, water, ice, and gasoline. Discrepancies between charges made for some of these commodities here in comparison with other places were pointed out. Data already gathered by a committee of the Chamber making an industrial survey was also submitted to the commissioners. No action was taken toward effecting a price reduction in any of these commodities.

Further business dealt with the issuance of instructions to the city attorney to instruct the Texas Public Service Co. to comply with State laws, and put all its wire in good condition. It is alleged that much insulation on the company's wire has worn off.

Ordinance 381, dealing with the parking of vehicles for freight hire, was read and passed for the second time. The measure would prohibit all freight vehicles for hire from parking on Main St. between Marshall and Maiden Sts. and within one block of Main St. on all intersecting streets between Marshall and Maiden Sts.

J. A. Birdsong was appointed school trustee. He takes the place of E. M. Rogers.

It was announced to the commission that the city has sold \$10,000 worth of water works and sewer extension bonds. The bonds were originally bought for the permanent improvement fund. This is what is known as a Class 3 investment.

CLUBS AND LODGES

Will Have All Day Meeting.

The Missionary Society of the Methodist Church will have an all day meeting in the church Monday. The morning will be devoted to devotional services and reports from the various circles. Circle 4, of which Mrs. E. L. McHugh, will serve lunch at noon to those present and to some business girls. From 2 to 3 o'clock the Rev. S. W. Hayne will conduct his Bible Study class and the next and last hour will be devoted to business. During the summer months the Missionary Society will meet but once a month and will hold an all day session on each first Monday.

FOARD COUNTY AGENT MARRIES MARGARET GIRL.

Miss Elgie Bagley, daughter of Mr. and Mrs. James Bagley of Margaret, and P. D. Chaney of Crowell were married Wednesday afternoon at 2 o'clock by Rev. S. H. Holmes at his residence. The young couple left after the ceremony by automobile for Mineral Wells and will be at home in Crowell after June 10.

The bride formerly taught school in Foard county, and Mr. Chaney is county agent there.

Card of Thanks.

We wish to thank our many friends for the sympathy and kindness shown us while in Vernon, waiting for the train to bear our dear one to Davidson, where she was laid to rest. And when your hour of sorrow comes, which must come to all, our desire is that your friends may be numerous to minister to your every wish and comfort, as you have ministered to ours.

MR. AND MRS. W. A. SMITH.

Amount of Wage Cut Not Known.

No estimate is had here as yet by local railroad agents on the amount of wage cuts in each office due to the recent decision of the U. S. Railroad Board to pare the expenses of the railroads. At the Frisco office the amount was placed in the neighborhood of \$100 per month, but the Denver office was unable to estimate the cut.

Frank Fletcher went fishing last night to Damsite.

Miss Allie Randall returned Tuesday from a visit in Electra.

S. D. Causey of Thalia was in Vernon Thursday.

Dave Grefler and William Schur, living southwest of town, were in Vernon Wednesday.

Jack Blanton, youngest son of Mr. and Mrs. J. S. Blanton, has arrived home from Austin where he has been attending a school for the deaf.

Mr. and Mrs. S. A. L. Morgan and son, John, of Wichita Falls are visiting in Vernon today. Accompanying them are Mr. Morgan's sisters, Misses Beatrice and Johnnie.

WHITE CITY GIRL MARRIES YESTERDAY

MISS EMMA LOU COVERT BECOMES BRIDE OF AMARILLO MAN.

Miss Emma Lou Covert, daughter of Mr. and Mrs. W. B. Covert of White City, and Finley Kerr of Amarillo were married Thursday afternoon, June 2, at the home of the bride. Rev. S. W. Hayne performed the ceremony and only a few intimate relatives and friends were present. The young couple left immediately after the wedding, which took place about 3 p. m., for Amarillo where they will make their home.

Miss Emma Lou Covert has been principal of the White City school for two years, and was born and reared in this county. Her parents are well-known, and her father is recognized as one of the county's most prosperous farmers.

Mr. Kerr is a farmer near Amarillo. He met his bride while she was attending school at Canyon some time ago.

At the Pictorium.

Today—Franklin Farnum in "The Struggle."

"Western" in movie parlance the hero and the first scenes are Eastern. Franklin plays with all his accustomed vigor the role of a reckless New York youth in whose blood still runs the war heat and fever. The commonplace hum drum of civil life does not satisfy this roistering youngster and he goes forth like a modern Don Quixote in search of stimulating thrills. His first adventure brings him for the first time in contact with a ravishingly beautiful Western girl. His second escapade nearly costs him his life. As a result he is forced to flee from home to escape the penalty for killing a man.

Saturday—Corinne Griffith in "What's Your Reputation Worth?" This is the strange story of a girl so impressed by a strange dream that she made it come true. She gave her reputation to the man she loved in order that she might find happiness, but she had a hard struggle and went through many unusual adventures before she found it.

Monday—Will Rogers in "An Unwilling Hero."

He is "Whistling Dick," the happy hobo, and it is predicted that his audience will love him more than they did Jubilo, another characterization of Will Rogers.

At the Opera House.

Today—"Behold My Wife," a George Melford production.

Embittered with life, a proud aristocrat sneeringly marries an Indian squaw. Then he sends her home to disgrace his family and he himself sinks to the dregs in a lumber camp in the North. But one day the man in him awakes and he seeks the pitiful creature whom he wronged. When he finds her she is a beautiful woman, moving in the cultured class, and she is the mother of his son. It is his indeed to seek forgiveness then.

Saturday—Tom Mix in "The Ridin' Romeo." Also last episode of "Eddie Polo of the Circus."

Monday—Mae Murray and David Powell in "Idols of Clay."

The man had worshipped a beautiful woman, had laid all his hopes and love at her feet only to find her cold and killing mockery. He girl had worshipped her father, only to discover in him a murderous rogue. So here life tumbled them, broken, helpless and abandoned, a little more clay in the mire of an underworld dive. Put the clay was warm with youth and in it was the glimmer of old, fine dreams, and out of it came at last finely moulded characters.

Will Indicate Fire Is Out.

After each fire hereafter the siren on the city hall will be sounded to indicate that the blaze has been put out, according to an announcement yesterday of B. A. Williams, chief. This will be done to quiet the fears of the public and let them know that danger is over. The order was made effective June 1.

Judge and Mrs. W. D. Berry left Thursday for a visit in Fort Worth and Mineral Wells.

Mrs. W. P. Garvin left Wednesday for Iowa Park to visit her daughter, Mrs. R. C. Pace.

U. S. Davis and T. J. Summerour left today for Littlefield and other points on the South Plains.

Mrs. M. E. Kelly returned Thursday from a week's visit in Fort Worth and Dallas. While in the latter city she was a guest in the home of Mr. and Mrs. H. H. Marr.

HER READINGS WILL DELIGHT CHAUTAUQUA

MISS CLARISSA HARROLD. Reader of plays will be with Redpath-Horner Chautauqua in "Friend Hanna."

RECEIVES DEBT OF 31 YEARS STANDING

Thirty-one years ago G. W. McCluskey and G. T. Tucker decided to "swap" wagons. It so transpired that Mr. Tucker possessed a wagon of more attributes than that of his caddweller in Rockwall county, and it was agreed that he was to receive six dollars as a bonus in the trade. But lean times are not a product of modern, twentieth-century modes of life, and Mr. McCluskey had not the wherewithal to settle the balance of the debt. Accordingly Mr. Tucker was presented with an I. O. U. for the six dollars, and he simply "tuck'er" and went on. As was first remarked, that was thirty-one years ago and both men naturally drifted far from the scene of their bargain.

Came Here 14 Years Ago.

Mr. Tucker came to Vernon fourteen years ago, and in the course of acquaintanceships, made that of Jim Howell, of Altus, Okla. Mr. Howell visited in this city frequently, but never until this week did he mention to his friend McCluskey in Altus that a Mr. Tucker was living in Vernon. However, during a conversation recently the Vernon friend was mentioned, and his name immediately conjured up in the mind of McCluskey a vision of six dollars long overdue.

The result was a letter offering profuse apologies for the belated payment, an explanation embodying the fact that the sender had searched through all the years for the man to whom he owed the trifle, and in addition, there was a check for six dollars with the hope that its receipt would prove of as much profit as it would have thirty-one years ago.

Marriage Licenses Issued.

Marriage licenses were issued May 31 to Thomas W. Glasco and Mrs. Eva Woolsey of Electra, and June 2 to F. Finley Kerr of Amarillo and Miss Emma Lou Covert of White City.

Convalesces From Operation.

Mrs. J. F. Gregory, who underwent an operation for appendicitis Monday, is doing well.

Mrs. W. R. Moore is in Spur visiting her mother and sister.

L. K. Johnson went to his ranch near Crowell Wednesday.

A. Allison has returned from a trip to Oklahoma, where he was called to look after some of his furs.

W. M. Hogan of Gainesville is visiting his daughter and son-in-law, Mr. and Mrs. Edgar McHugh. Accompanying him are his daughters Misses Mildred and Julia, and his son Roy.

FROM REMOTEST PARTS OF GLOBE

Tanlac Elements Come From Many Lands Far Away From Here.

The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth, and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkerville, Canada.

The Alps, Appennines, Pyrenees, Russian-Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac which, according to recent reports, is now having the largest sale of any medicine of its kind in the world; over 20,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, bark and flowers are received in their rough

state from all parts of the globe until their medicinal properties have been extracted by the most approved processes. As Interesting As Your Every-Day Mail

THE advertisements in this paper were written to you. It is impossible for most merchants and manufacturers to send you a personal letter about their goods, their wares and their services. So they pay us for the privilege of calling these things to your attention in our advertising columns.

If they did not know that a certain proportion of our readers would be vitally interested in their message, they could not afford to advertise. It would be a losing proposition.

Read the advertisements as you would a personal letter. Many of them are just as important—and just as interesting. They will help you to economize and to keep posted on store news of real interest to you and your pocketbook.

COUNTY GIRLS TO HOLD ENCAMPMENT JUNE 28-JULY 1

Home Demonstration Clubs Will Conduct Annual Outing In Allingham Park—Program Of Interest Is Arranged For Entertainment Of Girls—Mothers Are Invited.

The annual encampment of girls in the county home demonstration clubs will be conducted from June 28 to July 1, according to an announcement of the local agents, and the site for the outing has been selected as Allingham Park. Every club member will receive an individual letter urging her to attend and to bring her mother as well. There will be no money charges made, but each person in attendance will be expected to bring some produce to contribute to the general larder. This produce will be of the sort raised on the average farm.

There will be early morning songs, swimming parties, trips through local business establishments including the Kell Mill and Vernon Record plant, hikes to nearby points of interest, band concerts, a daily hours of club work, a "quiet hour," a daily lesson in physical education, and other recreations. Arrangements are being made to bring some well-known Texas people here to make talks to the girls, and local speakers will also be called upon.

Capable Chaperons Provided.

Capable chaperons have been provided, and any mother is welcome to accompany her girl. In addition to the home demonstration agents who will be in charge, the county Red Cross nurse will attend and care for the health of the party. The girls are asked to furnish a quilt, blanket, and pillow, or two quilts and a pillow. Each will need a gingham dress, or dark skirt and white middie, a pair of comfortable shoes for walking, a swimming suit, uniform cap and apron, and a white dress or middie suit.

Following is a partial list of the supplies that will be necessary at the camp, and each girl is asked to bring one or more articles of the list. There will be needed four pecks Irish potatoes, four pecks sweet potatoes, four dozen eggs and four pounds butter, four gallons buttermilk daily or two gallons sweet milk, one sack flour, one sack cornmeal, one gallon preserves, four jars of jelly, jam, or marmalade, four chickens, and one ham.

NOTARIES EXPECTED TO QUALIFY LAST WEDNESDAY

Commissions of all notary publics expired Wednesday, and all were expected to qualify by that time. The only legitimate excuses accepted by the county clerk are for absence from town and sickness. Ten days from the date of notification are given to qualify.

Notaries cannot take an acknowledgment until they qualify.

NEW YORK TRAFFIC POLICE EQUIPPED WITH SIGNAL LIGHTS

A new signal device to be used by the night traffic policemen of New York City was demonstrated by Department Commissioner Dr. John A. Harris, who originated the device. It consists of three lights, red, white and green, and is suspended upon the chest of the officer on top of a sort of apron-like jacket. The device is operated by tiny electric switches, one for each light, and is really a miniature model of the signal lights on the huge traffic towers erected on the busy main thoroughfares of the city. It performs the same duty while eliminating the necessity of erecting the signal tower. The photo shows an officer equipped with the device.

PREACHING.

The Air-Dome has been seated, lights placed, the premises cleaned, and everything made ready for the revival which begins there Sunday morning. The meeting will be under auspices of the Church of Christ, worshipping at the corner of Marshall and Deaf Smith streets.

Evangelist Foy E. Wallace, Jr., will be in charge of the preaching and Tillit S. Teddlie will direct the singing. The meeting is announced to continue only ten days, including two Sundays. Those in charge urge all who are interested to attend the first service.

Services Sunday morning will be held in the church building. Meetings at the Air-Dome will begin promptly at 8:15 o'clock each evening. The general public is invited. The subject Sunday night will be "Why I Believe The Bible."

The Air-Dome is just east of the Hotel Vernon.

DOG WEARING CHIN WHISKERS IS DEAD

OIL MAN'S SNOW WHITE HAIR
AND BLACK EYEBROWS WERE
SPECTACULAR.

"Born June 3, 1917; died June 3, 1921." This is the chronology which will appear on the epitaph to Oil Man, after he is buried at 3 o'clock today.

Oil Man died the night he was 4 years old. Cause of his death is unknown. He was found this morning in the street near his home, stiff in a pool of water.

Oil Man was owned by Dr. A. P. Howard, and had attracted attention as far away as New York City. He was Spitz and Poodle, and an aristocrat among dogs.

With chin whiskers, four inches long, and with black eyebrows, Oil Man was a spectacular figure. His hair when full length was 6 1/2 inches long, but it was worn clipped close, and was snow white, adding to his striking appearance in contrast to the black eyebrows and long chin whiskers.

Another claim to distinction by Oil Man is that he rode in an airship. Dr. Howard says Oil Man is the only dog in this section which has gone 3,000 feet in the air in an airplane.

TRUCKS VS. LOCOMOTIVE.

The railroads of Great Britain want
 to get off of rails, according to a state-
 ment in the Dallas News. They wish
 to try the highways awhile.

It is said that during the recent war
 motor trucks saved England from
 starvation.

While the situation in Great Britain
 is dissimilar to any but the more
 thickly populated sections of the
 United States, and admitting that the
 motor truck may be used much more
 advantageously when traffic is heavy,
 and on short hauls—the fact remains
 that there are a multitude of advan-
 tages in favor of motor over steam en-
 gine in this country, and particularly
 as regards hauling to rural districts.

We would be wise to recognize the
 potentialities of the motor truck and
 understand how great will be the ad-
 vantages of that community with roads
 which makes hauling by truck easy.
 Contrariwise, any community without
 permanent good roads handicaps itself
 terribly in the race for commercial su-
 premacy, as well as in the inconven-
 iences which its residents are made to
 undergo.

The idea in this for Wilbarger coun-
 ty is that we must begin an extension
 of the permanent road recently laid
 in Defined District No. 1. Despite the
 efforts of our commissioners (and
 they have worked untiringly) many
 miles of the main highways in Wilb-
 arger county are distressing.

If it were possible to drag these
 roads frequently their life would be
 extended, especially during those sea-
 sons when rain is frequent. Just now
 dragging would be of no avail.

Wilbarger must have permanent
 good roads.

MARGARET IS FIRST.

The Margaret Methodist Church had
 pledged \$200 more than its quota of
 \$3,248 to the educational fund by mid-
 afternoon Sunday. It is the only com-
 munity in the Vernon district to report,
 as yet, that it has pledged its quota.

Margaret's action is all the more
 gratifying when it is considered that
 the community is entirely rural and
 the farmers are generally supposed to
 be more discouraged than are town-
 people. The act is undoubtedly one of
 fine faith in an all-wise God and in
 the productivity of our soil during the
 next five years.

The only basis on which the attitude
 of many people toward this momentous
 question can be understood is that
 they have not visioned its far-reaching
 consequences. Few men in Wilbarger
 county, at least, but believe that with-
 in the next five years we shall all en-
 joy another era of prosperity. They
 know, too, that they can pledge \$10 to
 \$25 a year without any serious incon-
 venience, because if the \$10 can not
 be paid this year, why it can undoubt-
 edly be paid next year. And if God,
 or our own misfortunes, scourage us
 so that it is impossible to pay—why no
 one will upbraid.

How men and women can refuse to
 pledge \$10 to \$25 a year to this—the
 most far-reaching effort of their
 church—and spend from two to three
 times as much in club dues or on social
 amenities, is an unsolved problem.

This is a supreme testing time for
 men and women of Methodist faith,
 just as last year was for the Baptists
 who pledged \$90,000,000, and for the
 Presbyterians and Christians.

TESTING THE DRY LAW.

Not nearly all of the "tests" to which
 the prohibition law is being subjected
 are of a legal nature. The most cruel-
 ing tests are those of unscrupulous
 men who have a personal interest in
 perpetuating the liquor traffic, and of
 those who are so selfish that they give
 self interest and just precedence over
 community or general welfare.

Never was a restrictive statute en-
 acted—a law designed to remove some
 evil from the body politic—but that an
 extra effort was made by those inter-
 ested in the perpetuation of the traf-
 fic or practice.

If the proponents of liquor can dis-
 credit prohibition it is reasonable to
 expect, at least from their standpoint,
 that the law will be repealed. With
 flagrant violations of the prohibition
 law many good people tend to espouse
 the opinion that "regulation" is better
 than prohibition.

Entrenched evil dies hard. The whis-
 key ring had its fingers reaching into
 every phase of our national life and
 the social order. We may naturally
 expect a desperate struggle before the
 thing is made to realize that its day
 has gone.

With all of the lawlessness of boot-
 leggers, and the numerous killings of
 enforcement officers, the fact remains
 that there is a great deal less of crime
 and fewer men are killed in the efforts
 to enforce prohibition than when the
 open saloon was "regulated."

WILL RATES GO DOWN?

If the cut of 12 per cent in the wages
 of railroad employes means a saving
 of \$400,000,000 to the railroads, it is
 natural to expect a modification of
 freight rates within a short time.
 Wages of the employes are not to be
 lowered until July 1.

Naturally railroad executives are
 disappointed. They were anxious to
 wipe out the \$600,000,000 increase of
 last year. It is equally true that the
 employes are disappointed. With low-
 ered living costs their pay was enabling
 them to enjoy more of the pleasures
 which money will buy, and it was
 hardly to be expected that the men
 would voluntarily give these up.

In the same spirit, the railroad heads
 declare that a reduction in freight or
 passenger fares is impossible. The
 thinking-by-stander knows this is not
 true. He knows, too, that the life of
 the nation depends on less expensive
 exchange of commodities, and he be-
 lieves that the railroads will profit
 more when rates are lowered because
 of the increased volume of traffic.

Patience, a vision, good cheer, and
 the spirit of the Good Samaritan are
 our greatest needs during the period of
 readjustment.

Communism is bankrupt say Lenin
 and Trotsky. They have asked the
 Russian soviets to take steps looking
 immediately to persuading capital to
 re-enter that disrupted country. An-
 other set of dreamers have found that
 capital is necessary to strengthen the
 hands of the workman to make his ef-
 forts profitably productive.

THINK SUPPLY OF GRAIN
CARS WILL BE AMPLE

A plentiful supply of grain cars to
 move the local crop is anticipated by
 agents of the Denver and Pacific rail-
 roads, and it is said that cars are be-
 ing stored up and down both lines.
 Much depends, it was pointed out, upon
 how soon shippers wish to move the
 grain. If it is carried out gradually no
 trouble is looked for.

Another point to be noted is the fact
 that other kind of freight is moving
 more slowly now than at the same
 time last year. This will help provide
 an abundance of cars.

Lay Water Extensions.

City workmen are laying a new wa-
 ter main on London St. between S.
 Cumberland and S. Bowie Sts. Other
 extensions contemplated are on Wheel-
 er St. from Wichita to Yamparika,
 west on Yamparika to Tolar, and from
 Pease to Texas Sts. through the cen-
 ter of the block between Eastland and
 St. James Sts.

On the Way to Recovery.

After a trip through Illinois, Mis-
 souri, Kansas, Oklahoma and Arkansas,
 Governor Harding of the Federal Re-
 serve Board declares that his con-
 viction that the worst is over and we
 are now on the way to recovery has
 been confirmed by the trip.

Governor Harding says:

"The trip confirmed my conviction
 that we in this country have now
 passed the most trying period of the
 world-wide readjustment of trade and
 prices and are on the road to recovery.
 We are approaching the new crop sea-
 son with underlying conditions far
 sounder and more favorable than they
 were a year ago, and, in spite of the
 unprecedented carry-over of cotton and
 grain, largely financed on bank credit,
 the reserves of the Federal Reserve
 system are nearly 40 per cent higher
 than they were a year ago, which
 leaves no room for apprehension re-
 garding the financing of either agri-
 culture or industry. Indeed, with the
 Federal Reserve Banks ready, as us-
 ual, to extend liberal credits to mem-
 ber banks for the legitimate require-
 ments of their customers, bankers
 everywhere seemed disposed to dis-
 miss credit as a factor of uncertainty
 or concern in the marketing of the
 new crops."

This is reassuring and it is in keep-
 ing with the opinions expressed in
 other authoritative quarters as to the
 future. The process of recovery may
 be slow. But it has certainly begun.—

Studio Open For Summer

Why not have your children make the summer vacation profitable to them by studying some musical instrument?

Thos. A. Edison says, "I believe that you should have each of your children taught some musical instrument such as the harp, violin, cello, flute, cornet, clarinet or saxophone, etc."

All great men and women the world over recognize the wonderful influence of music study in character building of children.

I am planning to organize a band, also a young ladies band and orchestra. If interested call to see or phone me within the next few days.

LOCAL OPEN SHOP ASSOCIATION WILL CONTINUE ACTIVE

Directors Issue Statement Setting Forth Why Organization Should Flourish in Every Community in America—Aided in Bringing Industrial Peace to Vernon Is Claim.

The Vernon Open Shop association will continue to operate here. This is done, its directors state, both because the successes of the past year justify its continuation and because that the radical elements ought to be held in check. A signed statement to that effect was issued by the directors following a meeting of the board yesterday.

Carrying the signatures of J. A. Birdsong, Daniel Bond, Emory Rhoads, W. N. Stokes, H. B. Wilhelm, Les. K. Johnson, W. O. Anderson, and R. H. Coffee, the statement reads:

"The principles of the open shop are fundamentally American and should be given an opportunity to flourish in every community in America. These principles are: Every man has a right to work regardless of his affiliation or non-affiliation with any organization; a dollar's worth of work for a dollar in pay, and a dollar in pay for a dollar's worth of work.

"The Vernon Open Shop association has been successful since it was organized a year ago. We have aided in bringing to Vernon industrial peace. We have helped create a situation whereby workmen quit loitering on jobs and have tried to give an honest day's work. We have brought about a condition under which the various unions have dropped their affiliation with one another.

"That our association has proven a benefit to both the laboring men and the public, we cite the fact that we have found jobs for 204 men and women. Of this number, 81 hold union cards. The number of union people furnished with jobs ought to prove that we are not fighting the unions, although radicals in Vernon have said so. We are fighting for the labor rights of American working men to work and receive a day's wage for a day's work and give a day's work for a day's wage. For the carrying out of the open shop principles, we invite the cooperation of every citizen and the aid of every organization."

JUNE TIME—NATURE'S SEASON—HAS COME

It is June time—the season of Nature's hey day, of green trees and grass, of mossy banks, of singing birds, and harvesting of crops. It is the time when "A young man's fancy," a time of balmy, balmy days, of moonlight nights, and warm, scented air.

There comes to one in June, somehow, the sensation of being brought closer to the great out-of-doors, of feeling subtly the pulsating, vigorous life that throbs through plant and brush, and there comes the desire to woo Nature at a time when her moods are less varying than at other seasons of the year. There comes into mind Lowell's immortal conception of the beauties of the month as he has Sir Launfal set out in quest of the Holy Grail at a time when "every clod feels a stir of night, an instinct within that reaches and towers." And the little bird sits at his door in the sun allowing his illumined being to overrun with its deluge of summer just as surely today as he did when the poet conceived his masterpiece.

Out-of-Doors Lures.

The lure of stream and field exercises no such power at other times as in June. Woods are in their bravest garb, trees cast their deepest shadows, and the dots of sunshine that trickle through the leaves add a setting that cannot be imitated at other seasons of the year. Fish rise to the baited hook with more than their usual precocity, there is a subdued murmur of life out of doors that hurls the senses into the pure enjoyment of being alive and one atom in the great order of things.

June—June with its love, with its hopes and its yearnings. June, when the warm ear of Nature is laid softly over the earth and tunes the world to its proper pitch. It is the month when the out-of-doors exhibits its finest wares, when there is struck in even the most prosaic heart the chord that whispers softly, "Rejoice, rejoice, for it is June."

Let Us Show You

Foster's Weather Report.

Washington, D. C., June 3, 1921.—Some small unimportant warm waves, storm waves and cool waves will occur during the week centering on June 11 but they are not worth a write-up. At the date of this Bulletin the great storm period predicted for first part of June, fully described in last Bulletin, is expected to be of considerable interest and after its cool wave passes temperatures are expected to make a general, gradual but great rise and good cropweather will be the result.

During first part of week centering on June 15 a general storm will appear in the Alaskan northwest. The word storm does not mean danger; it means the same but is better than to say weather disturbance. These storms are one of the all-important weather features. Were it not for them we would get only the ancient mists that prevailed before the Moon came to the Earth.

The warm wave of this storm will cover all the northwestern part of the continent and its center will cross to the east side of meridian 90 near June 15, take the usual course for this season toward the southern Alleghenies and then northeast toward Newfoundland. The center of the low or storm wave is expected to cross meridian 90 near St. Louis about June 16, reach the eastern cotton states about 18 and

Newfoundland 20. Not much of a cool wave will follow but the preceding warm wave will bring higher than usual temperatures.

Rains from this storm will be much less than will have come from the storms earlier in June. Their distribution will be much the same as for earlier rains of this month. Storm forces of middle of June will be moderate but will increase toward end of month. No hail is expected during the week centering on June 15.

I have tried to teach my readers how rightly to interpret these forecasts and they are making splendid progress. They must have intelligence and information before they can get the full benefit of my rainfall forecasts. All now understand the moisture for this five months cropweather period is coming from a vast section of the Atlantic ocean that lies between Newfoundland and Ireland and is being carried westward by the highs that move eastward. This moisture is condensed into rain as it enters the lows or storm centers but most rain occurs where the westward moving moisture strikes rising lands and least on the westward side of the hills or ridges or mountain crests.

But it makes great difference as to where you are located. In the early part of the storm path, in Alberta or B. C., the rains will be in the south east or south quadrant or quarter of

the storm. But if the storm center is in Florida the rains will be in the north or the northeast quadrant of the storm. Lay out the storm path on your map of this continent and then estimate where most rain will fall when the storm progressing eastward, reaches your longitude.

I am expecting the average rainfall for June on this continent to be above normal in sections near the Atlantic and Pacific coasts.

Very severe and crop damaging storms followed by killing frosts in northern sections are expected during the ten days centering on June 4. That will be the time for farmers to sell their wheat and dealers to sell September deliveries of oats and corn.

TRADE MARK

\$625 f. o. b. Detroit

The Fordson saves from thirty to fifty per cent of the farmer's time.

The Fordson plows, harrows, drills as much ground in the same time as from six to eight horses. The Fordson will pull an eight-foot binder and a small thresher.

The Fordson does for the farmer just what machine power does for the manufacturer—it enables him to manufacture his product at less cost. And that is what the farmer wants to do; grow his crops more cheaply and make his margin of profit greater. And the Fordson will help him do it.

Let us prove this to you by a demonstration on your own farm. Just phone us or drop us a card.

FORD AUTHORIZED SALES AND SERVICE

MOTOR TRUCK LAW TO BE ENFORCED BEGINNING JUNE 12

(Continued from Page 1)

The tire equipment and gross weight of vehicle and load as follows:

100 lbs. gross weight and load	
Pneumatic tires	15c
Solid tires	25c
Iron, steel or other hard tires	35c

For each tractor the annual license fee shall be based upon the tire equipment and the weight of the tractor as follows:

100 lbs. gross weight and load	
Pneumatic tires	25c
Solid tires	35c
Iron, steel or other hard tires	50c

Are Certain Exemptions.

Owners of passenger motor vehicles that have a seating capacity of more than seven passengers shall pay in addition to the fee of thirty-five cents per horsepower, and additional registration fee of one dollar for each number of passengers the motor vehicle will seat in excess of seven passengers. Tractors used exclusively for agricultural purposes, fire engines, road rollers, steam shovels and other road building and agricultural machinery, shall not be required to be registered. Any person or persons driving or operating or permitting to be driven or operated any vehicle whose gross weight exceeds the maximum weights prescribed herein shall be guilty of a misdemeanor, and upon conviction shall be fined in any sum not exceeding two hundred dollars.

The owner of any commercial motor vehicle or trailer having a net carrying capacity of more than one ton shall make application to the county tax collector accompanied by the registration certificate, or certified copy thereof, showing said motor vehicle or trailer to be registered under existing laws, and which application must show the carrying capacity in tons of said motor vehicle or trailer for the further license to operate said motor vehicle or trailer, which application shall be sworn to, and, as far as practicable, shall state the general route or routes and the estimated mileage thereof in each county or counties over which it is proposed to operate said motor vehicle or trailer, but such mileage shall not include the streets of any incorporated town or city.

Regulates Speed.

The owner of each commercial motor vehicle or trailer registered hereunder shall keep in a separate book or books kept for that purpose, an account of the number of miles traveled by said motor vehicle and trailer attached thereto. If said motor vehicle or trailer is operated in more than one county, an accurate account shall be kept of the miles so traveled in each county. Said books shall at all times be kept open for the inspection of the county tax collector or duly authorized agent.

Motor vehicles of the kinds and weights specified shall not be operated on the public highways of this State at greater rates of speed than herein prescribed. Equipped with pneumatic tires this is:

Maximum weight, including gross weight of vehicle and load—Speed

limit miles per hour.	
4,000 lbs.	15
6,000 lbs.	12
8,000 lbs.	10
10,000 lbs.	10
16,000 lbs.	10
20,000 lbs.	10

Any person who shall operate a motor vehicle at a greater rate of speed than that herein allowed shall be guilty of a misdemeanor and punished by a fine of not less than ten dollars nor more than two hundred dollars, or by imprisonment in the county jail not more than thirty days. No commercial motor vehicle of the kinds and weights prescribed herein shall be operated on the public highways of this State unless equipped with a mechanical device or governor so that it cannot be operated at a speed in excess of the limits prescribed herein.

Must Make Statement.

On January 1, April 1, July 1, and October 1 of each year, the owner or owners of each commercial motor vehicle or trailer licensed as provided for in this act, shall make a statement duly sworn to by himself, directed to the tax collector of the county where said owner has his principal office or place of business, which statement shall clearly show the number of miles traveled during the preceding quarter in each county by said commercial motor vehicle or trailer while being operated outside the limits of incorporated cities and towns. Said statement shall be accompanied by a sufficient sum of money in lawful money of the United States, as a reasonable license fee for the extra burden placed on said highways and roads by the operation over them of the character of motor vehicles licensed hereunder, as follows:

Net carrying capacity in pounds.	License fee per mile.
2001 to 3999	1c
4000 to 5999	2c
6000 to 7999	3c
8000 to 9999	5c
10,000 to 11,999	8c

Any owner of a commercial motor vehicle or trailer who operates or permits the same to be operated on the public highways of this State without having first registered such vehicle or trailer as provided for in this act, or any such owner who operates or permits to be operated a commercial motor vehicle or trailer that is loaded with a load weighing over ten per cent in excess of its registered carrying capacity, or any such owner who shall fail or refuse to keep mileage record, or who shall fail or refuse to submit the statements accompanied by the proper fee as provided for in this act, shall be deemed guilty of a misdemeanor and punished by fine not exceeding \$200 for each offense.

It Bakes the Finest Bread You Ever Ate

RED STAR
Detroit Vapor Oil Stove

Most women think an oil stove does not deliver enough heat for all kinds of baking. That is because they have never seen this oil stove.

No matter what you may think, here is one oil stove that will cook or bake anything perfectly.

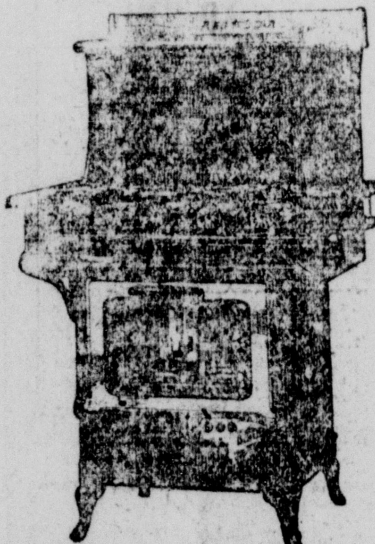

It is entirely different. The Red Star burners are the secret of its remarkable efficiency. They are wickless. They generate gas from kerosene or gasoline. They leave no odor or smoke and give 19 hours of perfect heat from each gallon of fuel.

This perfected burner makes the Red Star equal to any city gas-range—in efficiency, cleanliness and in economy.

Come in and see it in operation. It will give you a new understanding of what you can accomplish with this oil stove.

Protracted Gospel Meeting--Air Dome

A series of religious services, to be conducted by the members of the local CHURCH OF CHRIST, will begin SUNDAY NIGHT, (June 5th), in the old AIR-DOME, corner Cumberland and East Texas, across street from Post office.

PLAIN BIBLE PREACHING

Political and secular subjects will not engage this preacher's attention. Believing in the gospel as the power to save men, knowing his responsibility before God for what he preaches, he will seek to declare the simple, positive New Testament plan of salvation. Consequently, there will be no effort made at entertainment, only in so far as the preaching of the Ancient Gospel and an Apostolic Simplicity of Worship will entertain honest and earnest hearers. The singing will be congregational and spiritual without mechanical assistance as these Christians believe that their hearts and voices are sufficient in singing praises to God.

WHAT MUST I DO TO BE SAVED?

This question will be answered each night just like it is answered in the Book of Acts by the Apostles of Christ. In so doing our aim will be to emphasize the supreme authority of God's Word.

Services 8:15 each evening—ten days only—You are cordially invited, will receive a hearty welcome and kind treatment.

All services absolutely free—No collections will be taken.

NUMBER 41

MOTOR TRUCK LAW TO BE ENFORCED BEGINNING JUNE 12

Measure Imposes Somewhat Stringent Regulations On Vehicles for Hauling—Regulates Load and Speed of Each Truck—Assesses Tax Bases On Mileage Covered Outside Towns.

Motor trucks in Texas will be brought under the effects of a somewhat stringent law which becomes effective June 12. The measure was passed at the last session of the legislature and not merely increases the license fee for such vehicles, but imposes in addition a mileage tax based on the hauling capacity of the truck. The revenue from this will be devoted to the road and bridge funds of the respective counties. This tax applies only to travel outside the corporate limits of the city. The present license fees for heavy freight carrying passengers for hire are considered wholly inadequate to compensate for damages done to the public highways.

In brief, the law is one providing for and increasing the annual license fee on commercial vehicles; providing for applications for registration, how and when said applications shall be made; defining a commercial motor vehicle; naming the net carrying capacity of such vehicles and the annual license fees to be charged in each instance; providing for annual license fee for trailers and semi-trailers and tractors; providing for fees to be paid on certain motor buses; providing penalties for failure to comply with provisions of this act; providing that the provisions of this act shall not apply to tractors used for agricultural purposes and road building; providing methods of determining horse power of certain vehicles; providing certain described vehicles shall not be licensed or operated on public roads; providing for exceptions and special permits; and providing that liability shall attach for damages to highways and bridges in certain instances. It is one also providing for the registration of commercial motor vehicles and trailers operating over highways in this State in one or more counties; providing for keeping of records by owner of commercial motor vehicle, showing miles traveled in each county and report thereof, and providing speed limit per hour for vehicles of certain maximum weight when equipped with pneumatic tires and when equipped with solid tires; providing for use of governors on commercial motor vehicles; providing fee per mile for net carrying capacity in pounds of each standard vehicle and providing for division and distribution of mileage fees among certain counties.

Must File Application.
In order to provide funds to effectuate the provisions of this act on and after January 1, 1922 and annually thereafter on and after the first day of January, every owner of a motor vehicle, or trailer or semi-trailer or motorcycle in this State shall file in the office of the county collector of the county in which he resides or in which the vehicle he owns is being operated, an application for the registration of each motor vehicle or motorcycle owned or controlled by him. Applications shall state whether the vehicle is for operation in one or more counties. Each application shall be accompanied by the requisite fee for the number of unexpired quarters of the calendar year, which fee for the registration of a motorcycle shall be three dollars, and for the registration of a motor vehicle, except these hereinafter designated as commercial motor vehicles, shall be thirty-five cents per horsepower.

Tax For Equipment and Weight.
A commercial motor vehicle is designated as one with a net carrying capacity of more than one ton intended, designed or used for the transportation of property. For each commercial motor vehicle the annual license fee shall be based upon the net carrying capacity of the vehicle as follows:

Net carrying capacity in pounds	Annual license fee
2001-4000	\$30
4001-6000	\$50
6001-8000	\$80
8001-10,000	\$120

For each trailer or semi-trailer, the annual license fee shall be based upon

EARL OF MINTO CARRIES BRIDE INTO NEW HOME.

The Earl of Minto, who was married in Montreal, Canada, recently to Miss Marion Cook of Montreal, took his wife to his ancestral home in England and followed out the old custom which decrees that a bridegroom must carry his bride over the threshold of her new home. The custom is said to be a relic of the runaway marriages of olden times. The photo shows Lord Minto carrying the new Lady Minto into the house.

274 MORE SCHOOL PUPILS IN COUNTY

SCHOLASTIC CENSUS TOTAL IS 4,823 WITH 1,513 IN VERNON.

An increase of 274 is shown in boys and girls of school age in Wilbarger county over last year in the report which County Superintendent J. N. Fulcher is forwarding to the Superintendent of Public Instruction in Austin. The census shows 4,823 scholars.

Vernon has 1,513 scholars, 719 being white boys, 762 white girls, twenty negro boys and twelve negro girls. One hundred sixty-five scholars are credited to Odell, sixty-nine being white boys, ninety-four white girls and two negro boys. There are eighty-four white boys and ninety-four white girls in Harrold.

Schools in Wilbarger county, including independent districts with not to exceed 150 pupils, have a total of 1,546 white boys, 1,375 white girls, twenty-six negro boys and twenty negro girls. Following is a report by school districts:

SCHOOLS TO PLAY DOUBLE HEADER

EACH GAME THIS AFTERNOON WILL LAST SEVEN INNINGS.

Vernon high school will meet North Fort Worth high school this afternoon in baseball at the fairgrounds in a double header, the first contest to start at 4 o'clock, according to a decision of the coaches made this morning. This alteration was made to better suit the convenience of both teams. Each game will last seven innings.

Baird, local southpaw, will in all probability pitch both games for Vernon, and Tarpley, captain elect of North Fort Worth and star twirler, will doubtless go the entire distance for the visitors. Tarpley is the lad who pitched in the game the locals lost to Fort Worth last week.

Teams In Good Condition.
Vernon has had but little practice this week, but according to Coach Winston, the men are in good condition. The games today will be the last of the season, win or lose for Vernon, and the Tarrant county team has no further games scheduled for the remainder of the season. According to A. J. Speece, Fort Worth coach, in the event Vernon is beaten this afternoon, he will run a challenge in a Fort Worth paper embracing all Texas and will play any team which has an unqualified right to be considered a title contender. North Fort Worth has played no games since the Vernon contest in that city last week, and the players are in best of condition. The first game, this afternoon will be the fourteenth of the season for Fort Worth. Thus far the visitors have lost but one game, having been defeated by Denton at that town.

The Fort Worth team arrived this morning. Lineups this afternoon will be as follows:

North Ft. Worth	Vernon
Joe Tarpley, 2b	Small, cf
Holland, lb	Larrimore, 3b
Ross, ss	Curtis, c
Washington, c	Smith, 2b
Wolfe, lf	Delmasso, ss
Clayton, cf	Cabe, lb
Clark, 3b	Parr, rf
Hull, rf	Hatt, lf
Jack Tarpley, p	Baird, p
Substitutes—Fort Worth: Hayes, Finney, Swallow.	

Umpires this afternoon will be Lismann and Murchison.

Vernon Defeats Chillicothe.
The Vernon town baseball team yesterday defeated Chillicothe in a game at the latter town 8 to 4. The locals held their opponents to no scores until the sixth inning, when Chillicothe got three hits and four runs, the Vernon team making two errors. Vernon got twelve hits in the game. The lineup for Vernon was Gilliland, catcher; Johnson, pitcher; Ladd, first base; Carney, second base; Foster, shortstop; H. Teal, third base; Howard, left field; Carrington, center field; Castleberry, left field.

WILL NOT SANCTION FINANCIAL DRIVES OF OUTSIDE ORDERS

Local Commercial Organization Is Of Opinion That Vernon Business Men Have Been Too Heavily Called Upon—Ministers Ask That Foreign Donations Be Through Churches.

The activities of organizers and promoters of drive organizations outside of Vernon will hereafter not be sanctioned by the local Chamber of Commerce, according to an announcement of the manager yesterday. The commercial body will take the position that if individuals in Vernon care to make donations to the funds to be raised they may do so at their own volition, but the projects will receive no sanction from the Chamber.

This decision was made because of the efforts of an individual, representing himself as a State agent for the China Famine Fund, who yesterday attempted to organize Vernon in order to make a drive. The officers of the Chamber of Commerce were sought in order to stimulate the campaign, and when these were refused the promoter became highly indignant.

Too Many Campaigns.
He was informed that the local business men have been "driven to death," that besides being called upon to contribute to funds raised in their immediate community they have been the objects for solicitation from every imaginable charitable organization. It was pointed out that Hon. Long, assisted by a letter from the Chamber of Commerce, had canvassed several times local business houses for contributions to the famine fund, and that the efforts of the Celestial, together with donations from the local Baptist and Christian churches had resulted in a fund of approximately \$600.

A meeting of the local ministerial association was called Thursday at 1 p. m. and considered the plans of the promoter. It was decided by the ministers that if local persons cared to donate to the relief fund, it would preferably be through the missionary channels of the various churches.

BILLY K. NORWOOD WEDS.
Former Vernon Boy Is Married In Altus, Oklahoma and Will Live In Lawton.

William K. Norwood and Miss Gertrude Tate of Altus, Okla., were married in Mangum, Okla., Sunday, according to advice from Altus. The young couple will live in Lawton.

Billy K. Norwood is a son of Mr. and Mrs. H. W. Norwood of Vernon, and for some time was employed with The Record. His wedding was a surprise to friends here. Concerning that happy event, the following is taken from the Altus Times-Democrat:

Mr. Norwood was formerly employed in the mechanical department of the Times-Democrat, resigning last Saturday to take up his new "duties." He never even told the boss what he planned to do and kept all of us in the dark. No doubt being a little excited—like nearly all of the fellows are—for some reason of which we are unable to solve—bought his license here at the court clerk's office and journeyed over to the fair city of Mangum where he handed over the license to the minister, but Norwood, like other must obey the law—the law being that you must purchase the license in the county where you marry—was forced to buy another marriage license at the court clerk's office in Mangum.

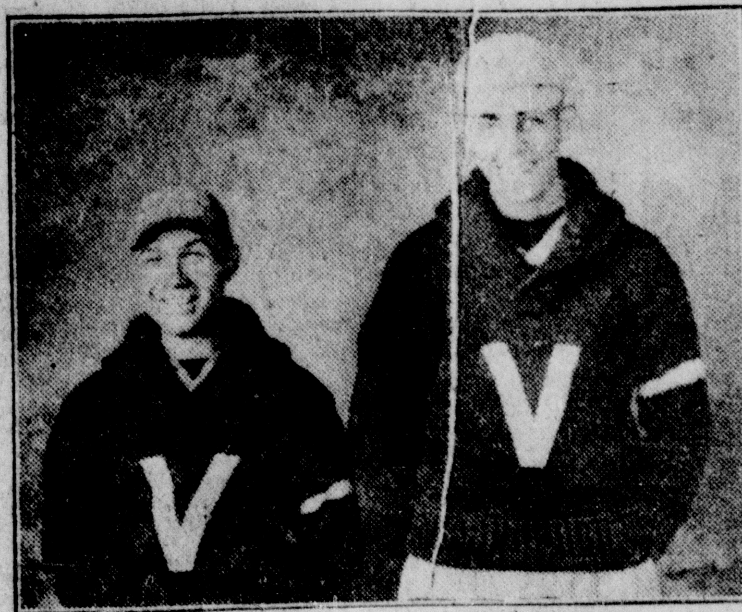

The bride resided west of town for a number of years, is a charming personality and has a host of friends who will be pleased to hear of her marriage.

**NEARLY 800 MEMBERS IN
COUNTY FARM BUREAU**
Close to 800 members have been obtained for the Wilbarger county farm bureau, according to R. D. Jones, local director of the campaign. The past week has been devoted to organizing local bureaus. Saturday at 2 p. m. a meeting will be held in the district court room for the purpose of electing county officers.

The bureau team that has been working in this county will go to Collinsworth county from here. From there it will go to Childress.

Cemetery Association to Meet.
The Cemetery Association will meet at 4 o'clock Tuesday afternoon in the auditorium of the Library building.

VERNON'S BATTERY THIS AFTERNOON.

Wallace Baird and Esker Curtis, who have been the mainstays of the local team during this baseball season. Baird is a left hander and has pitched consistent ball in every game in which he has worked this season. Last week, against the strong Abilene team, he allowed but two hits and struck out sixteen men, winning the game 2 to 1. Curtis is an exceptional player for a high school team, is captain of the local aggregation, possesses a fine throwing arm, and is a conscientious, heady player.

MANY TOWNS HAVE NEW COMMANDERY

CHARTERS WERE DELIVERED THIS WEEK TO DALHART, STAMFORD AND SPUR.

Right Eminent Sir Livingston Gardner Hawkins of Vernon is constituting new commanderies of the Masonic Lodge this week at Bowle, Childress and Seymour. He is also delivering charters to the commanderies recently established at Dalhart, Stamford and Spur.

Mr. Hawkins is accompanied by Right Eminent Sir J. C. Kidd of Houston, Grand Recorder of the Masonic Lodge for Texas. Mr. Hawkins is Grand Commander of the Grand Commandery, Knights Templar of Texas. He is devoting a great portion of his time to the interests of the Order of which he is such an enthusiastic member.

LITTLE WEEKLY GIRL DIES.

Child's Death Comes a Few Hours After Condition Takes Turn For the Worse.

Willie Mae Weekley, 10 year old daughter of Mr. and Mrs. Verna Weekley living about twelve miles southwest of Vernon, died Tuesday noon at her home after a short illness. The little girl had not felt well since Sunday, but her condition took a turn for the worse only the morning of the day she died. Her death is attributed to diphtheria.

Willie Mae was an exceptionally bright and animated child, and her sudden death came as a hard blow to her parents and friends of the family. She would have been 11 years old June 11, and attended the Kincheloe school. The little girl appeared in the piano recital of Miss Edith McCarrill's pupils Thursday, May 26, at the Methodist Church, and took her last music lesson the following Saturday. She is said to have swallowed a piece of ice Sunday and became slightly ill afterwards.

Funeral services for the child were conducted from the home of Morris Bonner in Vernon and Rev. R. V. Tooley of Tolbert officiated. Burial was in East View Cemetery. The girl was the oldest of three children.

Compliment Local Merchants.

The financial status of local merchants in regard to prompt settlement with the U. S. Government for luxury and war taxes is above the average for a town of this size, according to Federal revenue collectors here this week. There are few delinquents on the Vernon list, it was said, and the town is exceptionally good financial shape. Local business men were complimented for their prompt and honest reports.

P. M. Word Is Telephone Manager.

P. M. Word of Fort Worth is manager of the local office of the Southwestern Telephone Company. He succeeds E. L. Childress, who left Wednesday for Cleburne. Mr. Word does not expect to be in Vernon permanently.

Infant Has Broken Arm.

The two years old daughter of Mr. and Mrs. J. A. Simmons living on S. Bowle St. suffered a broken arm early in the week when she fell from a high chair. The little girl is improving rapidly.

J. T. FOSTER MADE PRINCIPAL OF THE LOCAL HIGH SCHOOL

Is Graduate of Chicago University and Has Had Six Years Experience In School Leadership—A. F. Winston Made Instructor In Science and Coach of Athletics.

J. T. Foster, principal last year of the Frederick, Oklahoma, high school, this morning was elected by the local school board to the principalship of the Vernon high school. Mr. Foster is a graduate of Chicago University, and has had six years' experience as principal of schools. He will return this summer to Chicago to get a master's degree. He will teach mathematics in the local high school. Mr. Foster is a native of Mississippi.

A. F. Winston was elected head of the science department and athletic coach for the local high school, and announced this morning that he would accept the place. At present Mr. Winston is connected with the Renfro Hardware Company, and is coach of Vernon high's pennant contending baseball team. He has had considerable experience as a teacher, serving here in that capacity in 1915-1916, and resigning a tendered principalship to go to San Marcos Baptist Academy as coach and instructor in 1916-1917. He was dean of Wayland College 1917-1918, and held the principalship of the Cripple Creek, Colo., high school from 1918 to 1920. Mr. Winston will teach physics and chemistry. He is a graduate of Colorado College.

Want Grounds Beautified.

Further business at the school board meeting dealt with the issuance of instructions to the city superintendent to cooperate to the fullest extent with the local Parent Teachers' Association toward putting the local school grounds in the best condition possible. This will consist of sowing grass, filling up washed places, and making the premises as attractive as possible. The city will be asked to remove rock that has been dumped on the grounds of the Shive school.

It was brought out at the meeting that there is no room in the present high school building for manual training, home economics, nor domestic science departments. A suggestion was offered to construct shacks on the grounds to be utilized for these departments, but this project was voted down. Board members do not consider the issuance of bonds advisable at this time.

J. A. Birdsong, newly appointed school member, to take the place of E. M. Rogers, took the oath of office this morning.

WEDS CROWELL MAN.

Miss Mary Louise Garrett and Jess E. Davis Are United At Bride's Home Sunday Afternoon.

Miss Mary Louise Garrett, daughter of Mr. and Mrs. James Garrett, and Jess E. Davis of Crowell were married Sunday afternoon at 2 o'clock at the home of the bride's parents on West Wanderer Street. Only a few immediate relatives were present at the ceremony which was performed by Rev. W. T. Rouse. The young couple left immediately for Crowell to make their home.

Mrs. Davis has lived in Vernon two years, coming here with her parents from Crowell. She was born at Tulsa, and her parents are planning to remove there in the near future. The bride attended school in Crowell and was graduated from the high school at that place. After coming to Vernon she was in the employ of The Vernon Record for several months. She was a student last year in the College of Industrial Arts at Denton.

Mr. Davis is in the grain business at Crowell. He served overseas with the American Expeditionary Forces during the World War.

Mrs. J. H. Hansen Dies.

Mrs. J. H. Hansen, formerly a resident of Vernon, died at her home in Walters, Okla., and was buried in Grandfield, Okla., today, according to word received by friends in this city yesterday. Mrs. Hansen and her husband, Dr. Hansen, lived in Vernon for a number of years, having moved from here to Oklahoma about twelve years ago. The latter has been dead three years. Mrs. Hansen is survived by six children, four of whom are married.

Thalia Resident Undergoes Operation.

Mrs. J. C. Lawhorn of Thalia underwent an operation in Vernon for Appendicitis Monday. She is reported as doing well.

DISCUSS RATES FOR PUBLIC UTILITIES

COMMITTEE OF BUSINESS MEN PRESENT DATA TO CITY COMMISSIONERS

An informal discussion was held Tuesday afternoon before city commissioners by R. L. More, Frank Massie, and the manager of the Chamber of Commerce on rates for electric lights, telephones, water, ice, and gasoline. Discrepancies between charges made for some of these commodities here in comparison with other places were pointed out. Data already gathered by a committee of the Chamber making an industrial survey was also submitted to the commissioners. No action was taken toward effecting a price reduction in any of these commodities.

Further business dealt with the issuance of instructions to the city attorney to instruct the Texas Public Service Co. to comply with State laws, and put all its wire in good condition. It is alleged that much insulation on the company's wire has worn off.

Ordinance 381, dealing with the parking of vehicles for freight hire, was read and passed for the second time. The measure would prohibit all freight vehicles for hire from parking on Main St. between Marshall and Maiden Sts. and within one block of Main St. on all intersecting streets between Marshall and Maiden Sts.

J. A. Birdsong was appointed school trustee. He takes the place of E. M. Rogers.

It was announced to the commission that the city has sold \$10,000 worth of water works and sewer extension bonds. The bonds were originally bought for the permanent improvement fund. This is what is known as a Class 3 investment.

CLUBS AND LODGES

Will Have All Day Meeting.

The Missionary Society of the Methodist Church will have an all day meeting in the church Monday. The morning will be devoted to devotional services and reports from the various circles. Circle 4, of which Mrs. E. L. McHugh, will serve lunch at noon to those present and to some business girls. From 2 to 3 o'clock the Rev. S. W. Hayne will conduct his Bible Study class and the next and last hour will be devoted to business. During the summer months the Missionary Society will meet but once a month and will hold an all day session on each first Monday.

FOARD COUNTY AGENT MARRIES MARGARET GIRL

Miss Elgie Bagley, daughter of Mr. and Mrs. James Bagley of Margaret, and P. D. Chaney of Crowell were married Wednesday afternoon at 2 o'clock by Rev. S. H. Holmes at his residence. The young couple left after the ceremony by automobile for Mineral Wells and will be at home in Crowell after June 10.

The bride formerly taught school in Foard county, and Mr. Chaney is county agent there.

Card of Thanks.

We wish to thank our many friends for the sympathy and kindness shown us while in Vernon, waiting for the train to bear our dear one to Davidson, where she was laid to rest. And when your hour of sorrow comes, which must come to all, our desire is that your friends may be numerous to minister to your every wish and comfort, as you have ministered to ours.

MR. AND MRS. W. A. SMITH.

Amount of Wage Cut Not Known.

No estimate is had here as yet by local railroad agents on the amount of wage cuts in each office due to the recent decision of the U. S. Railroad Board to pare the expenses of the railroads. At the Frisco office the amount was placed in the neighborhood of \$100 per month, but the Denver office was unable to estimate the cut.

Frank Fletcher went fishing last night to Damsite.

Miss Allie Randall returned Tuesday from a visit in Electra.

S. D. Causey of Thalia was in Vernon Thursday.

Dave Gfeller and William Schur, living southwest of town, were in Vernon Wednesday.

Jack Blanton, youngest son of Mr. and Mrs. J. S. Blanton, has arrived home from Austin where he has been attending a school for the deaf.

Mr. and Mrs. S. A. L. Morgan and son, John, of Wichita Falls are visiting in Vernon today. Accompanying them are Mr. Morgan's sisters, Misses Beatrice and Johnnie.

WHITE CITY GIRL MARRIES YESTERDAY

MISS EMMA LOU COVERT BECOMES BRIDE OF AMARILLO MAN.

Miss Emma Lou Covert, daughter of Mr. and Mrs. W. B. Covert of White City, and Finley Kerr of Amarillo were married Thursday afternoon, June 2, at the home of the bride. Rev. S. W. Hayne performed the ceremony and only a few intimate relatives and friends were present. The young couple left immediately after the wedding, which took place about 3 p. m., for Amarillo where they will make their home.

Miss Emma Lou Covert has been principal of the White City school for two years, and was born and reared in this county. Her parents are well known, and her father is recognized as one of the county's most prosperous farmers.

Mr. Kerr is a farmer near Amarillo. He met his bride while she was attending school at Canyon some time ago.

GO TO THEATRE

At the Pictorium.

Today—Franklin Farnum in "The Struggle."

"Western" in movie parlance the hero and the first scenes are Eastern. Franklin plays with all his accustomed vigor the role of a reckless New York youth in whose blood still runs the war heat and fever. The commonplace hum drum of civil life does not satisfy this roistering youngster and he goes forth like a modern Don Quixote in search of stimulating thrills. His first adventure brings him for the first time in contact with a ravishingly beautiful Western girl. His second escapade nearly costs him his life. As a result he is forced to flee from home to escape the penalty for killing a man.

Saturday—Corinne Griffith in "What's Your Reputation Worth?"

This is the strange story of a girl so impressed by a strange dream that she made it come true. She gave her reputation to the man she loved in order that she might find happiness, but she had a hard struggle and went through many unusual adventures before she found it.

Monday—Will Rogers in "An Unwilling Hero."

He is "Whistling Dick," the happy hobo, and it is predicted that his audience will love him more than they did Jubilo, another characterization of Will Rogers.

At the Opera House.

Today—"Behold My Wife," a George Melford production.

Embittered with life, a proud aristocrat sneeringly marries an Indian squaw. Then he sends her home to disgrace his family and he himself sinks to the drags in a lumber camp in the North. But one day the man in him awakes and he seeks the pitiful creature whom he wronged. When he finds her she is a beautiful woman, moving in the cultured class, and she is the mother of his son. It is his duty to seek forgiveness then.

Saturday—Tom Mix in "The Ridin' Romeo." Also last episode of "Eddie Polo of the Circus."

Monday—Mae Murray and David Powell in "Idols of Clay."

The man had worshipped a beautiful woman, had laid all his hopes and love at her feet only to find her cold and killing mockery. He girl had worshipped her father, only to discover in him a murderous rogue. So here we find a broken, homeless, and abandoned, a little more clay in the more of an underworld dive. Put the clay was warm with youth and in it was the glimmer of old, fine dreams, and out of it came at last finely moulded characters.

Will Indicate Fire Is Out.

After each fire hereafter, the siren on the city hall will be sounded to indicate that the blaze has been put out, according to an announcement yesterday of B. A. Williams, chief. This will be done to quiet the fears of the public and let them know that danger is over. The order was made effective June 1.

Judge and Mrs. W. D. Berry left Thursday for a visit in Fort Worth and Mineral Wells.

Mrs. W. P. Garvin left Wednesday for Iowa Park to visit her daughter, Mrs. R. C. Pace.

U. S. Davis and T. J. Summerour left today for Littlefield and other points on the South Plains.

Mrs. M. E. Kelly returned Thursday from a week's visit in Fort Worth and Dallas. While in the latter city she was a guest in the home of Mr. and Mrs. H. H. Marr.

HER READINGS WILL DELIGHT CHAUTAUQUA

MISS CLARISSA HARROLD. Reader of plays will be with Redpath-Horner Chautauqua in "Friend Hanna."

RECEIVES DEBT OF 31 YEARS STANDING

Thirty-one years ago G. W. McCluskey and G. T. Tucker decided to "swap" wagons. It so transpired that Mr. Tucker possessed a wagon of more attributes than that of his co-dwellers in Rockwall county, and it was agreed that he was to receive six dollars as a bonus in the trade. But lean times are not a product of modern, twentieth century modes of life, and Mr. McCluskey had not the wherewithal to settle the balance of the debt. Accordingly Mr. Tucker was presented with an I. O. U. for the six dollars, and he simply "tuck'er" and went on. As was first remarked, that was thirty-one years ago and both men naturally drifted far from the scene of their bargain.

Came Here 14 Years Ago.

Mr. Tucker came to Vernon fourteen years ago, and in the course of acquaintanceships, made that of Jim Howell, of Altus, Okla. Mr. Howell visited in this city frequently, but never until this week did he mention to his friend McCluskey in Altus that a Mr. Tucker was living in Vernon. However, during a conversation recently the Vernon friend was mentioned, and his name immediately conjured up in the mind of McCluskey a vision of six dollars long overdue.

The result was a letter offering profuse apologies for the belated payment, an explanation embodying the fact that the sender had searched through all the years for the man to whom he owed the trifle, and in addition, there was a check for six dollars with the hope that its receipt would prove of as much profit as it would have thirty-one years ago.

"FORBIDDEN FRUIT"

FROM REMOTEST PARTS OF GLOBE

Tanlac Elements Come From Many Lands Far Away From Here.

The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth, and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkerville, Canada.

The Alps, Appennines, Pyrenees, Russian-Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac which, according to recent reports, is now having the largest sale of any medicine of its kind in the world; over 20,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, bark and flowers are received in their rough

state from all parts of the globe until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada to supply a demand never before equalled by this, or any other medicine.

Tanlac is sold in Vernon by Ferguson Drug Company, in Odell by R. J. Belcher, in Harrold by Wilson Drug Company and druggists everywhere. It

COUNTY GIRLS TO HOLD ENCAMPMENT JUNE 28-JULY 1

Home Demonstration Clubs Will Conduct Annual Outing In Allingham Park—Program Of Interest Is Arranged For Entertainment Of Girls—Mothers Are Invited.

The annual encampment of girls in the county home demonstration clubs will be conducted from June 28 to July 1, according to an announcement of the local agents, and the site for the outing has been selected as Allingham Park. Every club member will receive an individual letter urging her to attend and to bring her mother as well. There will be no money charges made, but each person in attendance will be expected to bring some produce to contribute to the general larder. This produce will be of the sort raised on the average farm.

There will be early morning songs, swimming parties, trips through local business establishments including the Kell Mill and Vernon Record plant, rides to nearby points of interest, band concerts, a daily hours of club work, a "quiet hour," a daily lesson in physical education, and other recreations. Arrangements are being made to bring some well-known Texas people here to make talks to the girls, and local speakers will also be called upon.

Capable Chaperons Provided. Capable chaperons have been provided, and any mother is welcome to accompany her girl. In addition to the home demonstration agents who will be in charge, the county Red Cross nurse will attend and care for the health of the party. The girls are asked to furnish a quilt, blanket, and pillow, or two quilts and a pillow. Each will need a gingham dress, or dark skirt and white middie, a pair of comfortable shoes for walking, a swimming suit, uniform cap and apron, and a white dress or middie suit.

Following is a partial list of the supplies that will be necessary at the camp, and each girl is asked to bring one or more articles of the list. There will be needed four pecks Irish potatoes, four pecks sweet potatoes, four dozen eggs and four pounds butter, four gallons buttermilk daily or two gallons sweet milk, one sack flour, one sack cornmeal, one gallon preserves, four jars of jelly, jam, or marmalade, four chickens, and one ham.

NOTARIES EXPECTED TO QUALIFY LAST WEDNESDAY

Commissions of all notary publics expired Wednesday, and all were expected to qualify by that time. The only legitimate excuses accepted by the county clerk are for absence from town and sickness. Ten days from the date of notification are given to qualify.

Notaries cannot take an acknowledgment until they qualify.

NEW YORK TRAFFIC POLICE EQUIPPED WITH SIGNAL LIGHTS

A new signal device to be used by the night traffic policemen of New York City was demonstrated by Department Commissioner Dr. John A. Harris, who originated the device. It consists of three lights, red, white and green, and is suspended upon the chest of the officer on top of a sort of apron-like jacket. The device is operated by tiny electric switches, one for each light, and is really a miniature model of the signal lights on the huge traffic towers erected on the busy main thoroughfares of the city. It performs the same duty while eliminating the necessity of erecting the signal tower. The photo shows an officer equipped with the device.

AIR-DOME REVIVAL TO START SUNDAY

EVANGELIST FOY E. WALLACE WILL BE IN CHARGE OF PREACHING.

The Air-Dome has been seated, lights placed, the premises cleaned, and everything made ready for the revival which begins there Sunday morning. The meeting will be under auspices of the Church of Christ, worshipping at the corner of Marshall and Deaf Smith streets.

Evangelist Foy E. Wallace, Jr., will be in charge of the preaching and T. H. S. Teddlie will direct the singing. The meeting is announced to continue only ten days, including two Sundays. Those in charge urge all who are interested to attend the first service.

Services Sunday morning will be held in the church building. Meetings at the Air-Dome will begin promptly at 8:15 o'clock each evening. The general public is invited. The subject Sunday night will be "Why I Believe The Bible."

The Air-Dome is just east of the Hotel Vernon.

DOG WEARING CHIN WHISKERS IS DEAD

OIL MAN'S SNOW WHITE HAIR AND BLACK EYEBROWS WERE SPECTACULAR.

"Born June 3, 1917; died June 3, 1921." This is the chronology which will appear on the epitaph to Oil Man, after he is buried at 3 o'clock today.

Oil Man died the night he was 4 years old. Cause of his death is unknown. He was found this morning in the street near his home, stiff in a pool of water.

Oil Man was owned by Dr. A. P. Howard, and had attracted attention as far away as New York City. He was Spitz and Poodle, and an aristocrat among dogs.

With chin whiskers, four inches long, and with black eyebrows, Oil Man was a spectacular figure. His hair when full length was 6 1/2 inches long, but it was worn clipped close, and was snow white, adding to his striking appearance in contrast to the black eyebrows and long chin whiskers.

Another claim to distinction by Oil Man is that he rode in an airship. Dr. Howard says Oil Man is the only dog in this section which has gone 3,000 feet in the air in an airplane.

TRUCKS VS. LOCOMOTIVE.

The railroads of Great Britain want to get off of rails, according to a state-
 ment in the Dallas News. They wish to
 try the highways awhile.

It is said that during the recent war
 motor trucks saved England from
 starvation.

While the situation in Great Britain
 is dissimilar to any but the more
 thickly populated sections of the
 United States, and admitting that the
 motor truck may be used much more
 advantageously when traffic is heavy,
 and on short hauls—the fact remains
 that there are a multitude of advan-
 tages in favor of motor over steam en-
 gine in this country, and particularly
 as regards hauling to rural districts.

We would be wise to recognize the
 potentialities of the motor truck and
 understand how great will be the ad-
 vantages of that community with roads
 which makes hauling by truck easy.
 Contrariwise, any community without
 permanent good roads handicaps itself
 terribly in the race for commercial su-
 premacy, as well as in the inconven-
 iences which its residents are made to
 undergo.

The idea in this for Wilbarger coun-
 ty is that we must begin an extension
 of the permanent road recently laid
 in Defined District No. 1. Despite the
 efforts of our commissioners (and
 they have worked untiringly) many
 miles of the main highways in Wilbar-
 ger county are distressing.

If it were possible to drag these
 roads frequently their life would be
 extended, especially during those sea-
 sons when rain is frequent. Just now
 dragging would be of no avail.

Wilbarger must have permanent
 good roads.

MARGARET IS FIRST.

The Margaret Methodist Church had
 pledged \$200 more than its quota of
 \$3,248 to the educational fund by mid-
 afternoon Sunday. It is the only com-
 munity in the Vernon district to report,
 as yet, that it has pledged its quota.

Margaret's action is all the more
 gratifying when it is considered that
 the community is entirely rural and
 the farmers are generally supposed to
 be more discouraged than are town-
 people. The act is undoubtedly one of
 fine faith in an all-wise God and in
 the productivity of our soil during
 the next five years.

The only basis on which the attitude
 of many people toward this momentous
 question can be understood is that
 they have not visioned its far-reaching
 consequences. Few men in Wilbarger
 county, at least, but believe that with-
 in the next five years we shall all en-
 joy another era of prosperity. They
 know, too, that they can pledge \$10 to
 \$25 a year without any serious incon-
 venience, because if the \$10 can not
 be paid this year, why it can undoubt-
 edly be paid next year. And if God,
 or our own misfortunes, scourage us
 so that it is impossible to pay—why no
 one will upbraid.

How men and women can refuse to
 pledge \$10 to \$25 a year to this—the
 most far-reaching effort of their
 church—and spend from two to three
 times as much in club dues or on social
 amusements, is an unsolved problem.

This is a supreme testing time for
 men and women of Methodist faith,
 just as last year was for the Baptists
 who pledged \$90,000,000, and for the
 Presbyterians and Christians.

TESTING THE DRY LAW.

Not nearly all of the "tests" to which
 the prohibition law is being subjected
 are of a legal nature. The most gruel-
 ing tests are those of unscrupulous
 men who have a personal interest in
 perpetuating the liquor traffic, and of
 those who are so selfish that they give
 self interest and lust precedence over
 community or general welfare.

Never was a restrictive statute en-
 acted—a law designed to remove some
 evil from the body politic—but that an
 extra effort was made by those inter-
 ested in the perpetuation of the traf-
 fic or practice.

If the proponents of liquor can dis-
 credit prohibition it is reasonable to
 expect, at least from their standpoint,
 that the law will be repealed. With
 flagrant violations of the prohibition
 law many good people tend to espouse
 the opinion that "regulation" is better
 than prohibition.

Entrenched evil dies hard. The whis-
 key ring has its fingers reaching into
 every phase of our national life and
 the social order. We may naturally
 expect a desperate struggle before the
 thing is made to realize that its day
 has gone.

With all of the lawlessness of boot-
 leggers, and the numerous killings of
 enforcement officers, the fact remains
 that there is a great deal less of crime
 and fewer men are killed in the efforts
 to enforce prohibition than when the
 open saloon was "regulated."

WILL RATES GO DOWN?

If the cut of 12 per cent in the wages
 of railroad employees means a saving
 of \$400,000,000 to the railroads, it is
 natural to expect a modification of
 freight rates within a short time.
 Wages of the employees are not to be
 lowered until July 1.

Naturally railroad executives are
 disappointed. They were anxious to
 wipe out the \$600,000,000 increase of
 last year. It is equally true that the
 employees are disappointed. With low-
 ered living costs their pay was enabling
 them to enjoy more of the pleasures
 which money will buy, and it was
 hardly to be expected that the men
 would voluntarily give these up.

In the same spirit, the railroad heads
 declare that a reduction in freight or
 passenger fares is impossible. The
 thinking by-stander knows this is not
 true. He knows, too, that the life of
 the nation depends on less expensive
 exchange of commodities, and he be-
 lieves that the railroads will profit
 more when rates are lowered because
 of the increased volume of traffic.

Patience, a vision, good cheer, and
 the spirit of the Good Samaritan are
 our greatest needs during the period of
 readjustment.

THINK SUPPLY OF GRAIN
CARS WILL BE AMPLE

A plentiful supply of grain cars to
 move the local crop is anticipated by
 agents of the Denver and El Paso rail-
 roads, and it is said that cars are be-
 ing stored up and down both lines.
 Much depends, it was pointed out, upon
 how soon shippers wish to move the
 grain. If it is carried out gradually
 no trouble is looked for.

Another point to be noted is the fact
 that other kind of freight is moving
 more slowly now than at the same
 time last year. This will help provide
 an abundance of cars.

LAY WATER EXTENSIONS.

 ter main on London St. between S.

On the Way to Recovery.

After a trip through Illinois, Miss-
 souri, Kansas, Oklahoma and Arkansas,
 Governor Harding of the Federal Re-
 serve Board declares that his con-
 viction that the worst is over and we
 are now on the way to recovery has
 been confirmed by the trip.

Governor Harding says:

"The trip confirmed my conviction
 that we in this country have now
 passed the most trying period of the
 world-wide readjustment of trade and
 prices and are on the road to recovery.
 We are approaching the new crop sea-
 son with underlying conditions far
 sounder and more favorable than they
 were a year ago, and, in spite of the
 unprecedented carry-over of cotton and
 grain, largely financed on bank credit,
 the reserves of the Federal Reserve
 system are nearly 40 per cent higher
 than they were a year ago, which
 leaves no room for apprehension re-
 garding the financing of either agri-
 culture or industry. Indeed, with the
 Federal Reserve Banks ready, as us-
 ual, to extend liberal credits to mem-
 ber banks for the legitimate require-
 ments of their customers, bankers
 everywhere seemed disposed to dis-
 miss credit as a factor of uncertainty
 or concern in the marketing of the
 new crops."

This is reassuring and it is in keep-
 ing with the opinions expressed in
 other authoritative quarters as to the
 future. The process of recovery may
 be slow. But it has certainly begun.—

Studio Open For Summer.

Why not have your children make the summer vacation profitable to them by studying some musical instrument?

Thos. A. Edison says, "I believe that you should have each of your children taught some musical instrument such as the harp, violin, cello, flute, cornet, clarinet or saxophone, etc."

All great men and women the world over recognize the wonderful influence of music study in character building of children.

I am planning to organize a band, also a young ladies band and orchestra. If interested call to see or phone me within the next few days.

LOCAL OPEN SHOP ASSOCIATION WILL CONTINUE ACTIVE

Directors Issue Statement Setting Forth Why Organization Should Flourish in Every Community in America—Aided in Bringing Industrial Peace to Vernon Is Claim.

The Vernon Open Shop association will continue to operate here. This is done, its directors state, both because the successes of the past year justify its continuation and because that the radical elements ought to be held in check. A signed statement to that effect was issued by the directors following a meeting of the board yesterday.

Carrying the signatures of J. A. Birdsong, Daniel Bond, Emory Rhoads, W. N. Stokes, H. B. Wilhelm, Les. K. Johnson, W. O. Anderson, and R. H. Coffee, the statement reads:

"The principles of the open shop are fundamentally American and should be given an opportunity to flourish in every community in America. These principles are: Every man has a right to work regardless of his affiliation or non-affiliation with any organization; a dollar's worth of work for a dollar in pay, and a dollar in pay for a dollar's worth of work.

"The Vernon Open Shop association has been successful since it was organized a year ago. We have aided in bringing to Vernon industrial peace. We have helped create a situation whereby workmen quit loitering on jobs and have tried to give an honest day's work. We have brought about a condition under which the various unions have dropped their affiliation with one another.

"That our association has proven a benefit to both the laboring men and the public, we cite the fact that we have found jobs for 204 men and women. Of this number, 81 held union cards. The number of union people furnished with jobs ought to prove that we are not fighting the unions, although radicals in Vernon have said so. We are fighting for the labor rights of American working men to work and receive a day's wage for a day's work and give a day's work for a day's wage. For the carrying out of the open shop principles, we invite the cooperation of every citizen and the aid of every organization."

JUNE TIME—NATURE'S SEASON—HAS COME

It is June time—the season of Nature's hey day, of green trees and grass, of mossy banks, of singing birds, and harvesting of crops. It is the time when "A young man's fancy,"—a time of balmy days, of moonlight nights, and warm, scented air.

There comes to one in June, somehow, the sensation of being brought closer to the great out-of-doors, of feeling subtly the pulsating, vigorous life that throbs through plant and brush, and there comes the desire to woo Nature at a time when her moods are less varying than at other seasons of the year. There comes into mind Lowell's immortal conception of the beauties of the month as he has Sir Launfal set out in quest of the Holy Grail at a time when "every clod feels a stir of might, an instinct within that reaches and towers." And the little bird sits at his door, in the sun allowing his illumined being to overrun with its deluge of summer just as surely today as he did when the poet conceived his masterpiece.

Out-of-Doors Lures.

The lure of stream and field exercises no such power at other times as in June. Woods are in their bravest garb, trees cast their deeper shadows, and the dots of sunshine that trickle through the leaves add a setting that cannot be imitated at other seasons of the year. Fish rise to the baited hook with more than their usual precocity, there is a subdued murmur of life out of doors that lulls the senses into the pure enjoyment of being alive and one atom in the great order of things.

June—June with its love, with its hopes and its yearnings. June, when the warm ear of Nature is laid softly over the earth and tunes the world to its proper pitch. It is the month when the out-of-doors exhibits its finest wares, when there is struck to even the most prosaic heart the chord that whispers softly, "Rejoice, rejoice, for it is June."

PRINTING

Good Printing Is the Dress of Business. That is the Kind We Do.

Let Us Show You

Foster's Weather Report.

Washington, D. C., June 3, 1921.—Some small unimportant warm waves, storm waves and cool waves will occur during the week centering on June 11 but they are not worth a write-up. At the date of this Bulletin the great storm period predicted for first part of June, fully described in last Bulletin, is expected to be of considerable interest and after its cool wave passes temperatures are expected to make a general, gradual but great rise and good cropweather will be the result.

During first part of week centering on June 15 a general storm will appear in the Alaskan northwest. The word storm does not mean danger; it means the same but is better than to say weather disturbance. These storms are one of the all-important weather features. Were it not for them we would get only the ancient mists that prevailed before the Moon came to the Earth.

The warm wave of this storm will cover all the northwestern part of the continent and its center will cross to the east side of meridian 90 near June 15, take the usual course for this season toward the southern Alleghenies and then northeast toward Newfoundland. The center of the low or storm wave is expected to cross meridian 90 near St. Louis about June 16, reach the eastern cotton states about 18 and

Newfoundland 20. Not much of a cool wave will follow but the preceding warm wave will bring higher than usual temperatures.

Rains from this storm will be much less than will have come from the storms earlier in June. Their distribution will be much the same as for earlier rains of this month. Storm forces of middle of June will be moderate but will increase toward end of month. No hail is expected during the week centering on June 15.

I have tried to teach my readers how rightly to interpret these forecasts and they are making splendid progress. They must have intelligence and information before they can get the full benefit of my rainfall forecasts. All now understand the moisture for this five months cropweather period is coming from a vast section of the Atlantic ocean that lies between Newfoundland and Ireland and is being carried westward by the highs that move eastward. This moisture is condensed into rain as it enters the lows or storm centers but most rain occurs where the westward moving moisture strikes rising lands and least on the westward side of the hills or ridges or mountain crests.

But it makes great difference as to where you are located. In the early part of the storm path, in Alberta or B. C., the rains will be in the south east or south quadrant or quarter of

The Fordson saves from thirty to fifty per cent of the farmer's time.

The Fordson plows, harrows, drills as much ground in the same time as from six to eight horses. The Fordson will pull an eight-foot binder and a small thresher.

The Fordson does for the farmer just what machine power does for the manufacturer—it enables him to manufacture his product at less cost. And that is what the farmer wants to do; grow his crops more cheaply and make his margin of profit greater. And the Fordson will help him do it.

RAIN LAST NIGHT OF GREAT VALUE

ROW CROPS ARE NOW PRACTICALLY ASSURED OF A GOOD STAND.

Heavy rain which fell last night in Vernon and vicinity is estimated to have been worth thousands of dollars to Wilbarger county farmers. It was the first precipitation of consequence for many weeks, and a blessing to the row crops which could not have survived much longer without moisture. Corn and sorghums benefited especially by the downpour, and were given such a good stand that a good crop is almost assured.

Cotton, too, has benefitted immensely by the rain, and it will now be possible for farmers who have postponed planting to put their crop in. That already in the ground will be given a good stand. More rain would still be decidedly welcome, according to the county agent, but the fact that today has remained cloudy has aided in keeping the moisture in the ground.

Rained Some Over County.

Practically the same rainfall was reported from all parts of the county with the exception of the extreme eastern part. North of the river the precipitation was about the same as at Vernon, west and southwest it was even heavier, there was a good shower at Oklaunion, but only a sprinkle at Harrold. The rainfall locally amounted to .9 of an inch. The rain started about 9 o'clock and continued intermittently until about midnight.

Mr. M. Baggott went to Dallas Monday on a business trip. He returned Thursday morning.

You will find the Vernon Record on sale at the City News Stand.

Mr. and Mrs. T. H. Shive, Misses Olive and Mary Myatt Shive, and Tom, Jr., left Thursday morning for Long Beach, Calif.

Clim Estes of Clovis, New Mexico, is in Vernon this week. He will be joined here shortly by his wife and the couple will make their home in the Lockett community. Mr. Estes formerly lived near Rayland.

MEXICAN PRESIDENT IS WARNED OF MADERO'S FATE

"Beware the fate of Francisco Madero, who failed to heed solicitations to change his policy and fell," was the warning sent to President Obregon of Mexico by Liberal-Constitutionalist members of the Chamber of Deputies and the Senate. The warning was contained in a memorial drafted at a caucus of the party and it made pointed charges that two of President Obregon's Cabinet officers had attempted to cause dissatisfaction against the Administration and were using their offices to propagate radicalism. The document was signed by 138 deputies and several Senators.

ACREAGE REDUCTION IS APPRECIABLE

TEXAS HAS THIRTY-TWO AND ONE-HALF PER CENT LESS LAND IN COTTON.

A report from the State Department of Agriculture of Texas indicates that a cotton acreage report from 132 counties shows a reduction averaging thirty-two and one-half per cent. The crop, it is said, is two weeks late and conditions are not favorable. The reports have come from field agents, farm demonstration agents, bankers, secretaries of farmers' institutes, and hundreds of individual farmers. The data has been gathered from nearly all the largest cotton producing counties in the State.

The report, summarized, is as follows:

Total acreage planted to cotton last year—12,576,000.

Total number of bales produced—4,130,000.

Total acreage planted this year—8,888,860.

Total acreage reduction—4,087,140.

Total percentage of reduction—32 1/2.

Based on yield of last year, this crop should produce—2,787,750 bales.

Estimate Too High.

This estimate, it is said, is too high as the crop is two weeks late, and no fertilizer is being used. It is thought that the yield for Texas will be reduced to 2,500,000 bales. Feed crops, including corn, oats, grain sorghums, peas, and peanuts have been increased about 25 per cent, and 7 per cent of land planted to cotton last year is lying out. All reports are said to indicate more supplies grown for home use.

Reports from official sources in other states show the following reduction in cotton acreage: Alabama, 20 per cent; Arkansas, 30 per cent; Florida, 50 per cent; Georgia, 45 per cent; Louisiana, 30 per cent; Mississippi, 35 per cent; North Carolina, 30 per cent; and Tennessee, 50 per cent, making a total reduction of 35 per cent for all cotton states reporting. Based upon last year's yield of 13,365,754 bales, this reduction would give 8,687,741 bales for the United States. Since the condition of the crop is poor, the amount of fertilizer reduced 75 per cent in the states, and with an unusually mild winter to facilitate the depredations of insect pests, it is believed that this estimate is conservative, and that the price of cotton should advance when the acreage and condition report of the Federal Government is received.

Citizens Military Training Camp.

Gen. Pershing emphasizes the obligation of every citizen to prepare himself to serve his country in time of danger and voices the importance of a trained citizen reserve. He strongly advocates the training which is to be furnished at the Citizens' Camps not only as a valuable asset in the up building of the Organized Reserve but especially as a personal benefit to the individual. He also urges the perpetuation of the veteran National Guard and the National Army units as the foundation of the great citizen Army upon which the nation must rely.

the tire equipment and gross weight of vehicle and load as follows:

100 lbs. gross weight and load
Pneumatic tires 15c
Solid tires 25c
Iron, steel or other hard tires 35c

For each tractor the annual license fee shall be based upon the tire equipment and the weight of the tractor as follows:

1000 lbs. gross weight and load
Pneumatic tires 25c
Solid tires 35c
Iron, steel or other hard tires 50c

Are Certain Exemptions.

Owners of passenger motor vehicles that have a seating capacity of more than seven passengers shall pay in addition to the fee of thirty-five cents per horsepower, and additional registration fee of one dollar for each number of passengers the motor vehicle will seat in excess of seven passengers. Tractors used exclusively for agricultural purposes, fire engines, road rollers, steam shovels and other road building and agricultural machinery, shall not be required to be registered. Any person or persons driving or operating or permitting to be driven or operated any vehicle whose gross weight exceeds the maximum weights prescribed herein shall be guilty of a misdemeanor, and upon conviction shall be fined in any sum not exceeding two hundred dollars.

The owner of any commercial motor vehicle or trailer having a net carrying capacity of more than one ton shall make application to the county tax collector accompanied by the registration certificate, or certified copy thereof, showing said motor vehicle or trailer to be registered under existing laws, and which application must show the carrying capacity in tons of said motor vehicle or trailer for the further license to operate said motor vehicle or trailer, which application shall be sworn to, and, as far as practicable, shall state the general route or routes and the estimated mileage thereof in each county or counties over which it is proposed to operate said motor vehicle or trailer, but such mileage shall not include the streets of any incorporated town or city.

Regulates Speed.

The owner of each commercial motor vehicle or trailer registered hereunder shall keep in a separate book or books kept for that purpose, an account of the number of miles traveled by said motor vehicle and trailer attached thereto. If said motor vehicle or trailer is operated in more than one county, an accurate account shall be kept of the miles so traveled in each county. Said books shall at all times be kept open for the inspection of the county tax collector or duly authorized agent.

Motor vehicles of the kinds and weights specified shall not be operated on the public highways of this State at greater rates of speed than herein prescribed. Equipped with pneumatic tires this is:

Maximum weight, including gross weight of vehicle and load—Speed

limit miles per hour.	
4,000 lbs.	15
6,000 lbs.	12
8,000 lbs.	10
10,000 lbs.	10
16,000 lbs.	10
20,000 lbs.	10

Any person who shall operate a motor vehicle at a greater rate of speed than that herein allowed shall be guilty of a misdemeanor and punished by a fine of not less than ten dollars nor more than two hundred dollars, or by imprisonment in the county jail not more than thirty days. No commercial motor vehicle of the kinds and weights prescribed herein shall be operated on the public highways of this State unless equipped with a mechanical device or governor so that it cannot be operated at a speed in excess of the limits prescribed herein.

Must Make Statement.

On January 1, April 1, July 1, and October 1 of each year, the owner or owners of each commercial motor vehicle or trailer licensed as provided for in this act, shall make a statement duly sworn to by himself, directed to the tax collector of the county where said owner has his principal office or place of business, which statement shall clearly show the number of miles traveled during the preceding quarter in each county by said commercial motor vehicle or trailer while being operated outside the limits of incorporated cities and towns. Said statement shall be accompanied by a sufficient sum of money in lawful money of the United States, as a reasonable license fee for the extra burden placed on said highways and roads by the operation over them of the character of motor vehicles licensed hereunder, as follows:

Net carrying capacity in pounds.	License fee per mile.
2001 to 3999	1c
4000 to 5999	2c
6000 to 7999	3c
8000 to 9999	5c
10,000 to 11,999	8c

Any owner of a commercial motor vehicle or trailer who operates or permits the same to be operated on the public highways of this State without having first registered such vehicle or trailer as provided for in this act, or any such owner who operates or permits to be operated a commercial motor vehicle or trailer that is loaded with a load weighing over ten per cent in excess of its registered carrying capacity, or any such owner who shall fail or refuse to keep mileage record, or who shall fail or refuse to submit the statements accompanied by the proper fee as provided for in this act, shall be deemed guilty of a misdemeanor and punished by fine not exceeding \$200 for each offense.

RED STAR
Detroit Vapor Oil Stove

Most women think an oil stove does not deliver enough heat for all kinds of baking. That is because they have never seen this oil stove.

No matter what you may think, here is one oil stove that will cook or bake anything perfectly.

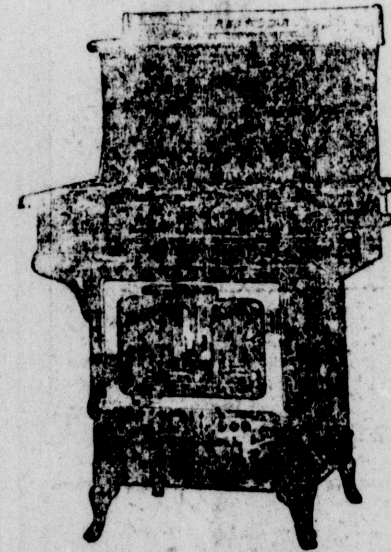

It is entirely different. The Red Star burners are the secret of its remarkable efficiency. They are wickless. They generate gas from kerosene or gasoline. They leave no odor or smoke and give 19 hours of perfect heat from each gallon of fuel.

This perfected burner makes the Red Star equal to any city gas-range—in efficiency, cleanliness and in economy.

Come in and see it in operation. It will give you a new understanding of what you can accomplish with this oil stove.

PLAIN BIBLE PREACHING

Political and secular subjects will not engage this preacher's attention. Believing in the gospel as the power to save men, knowing his responsibility before God for what he preaches, he will seek to declare the simple, positive New Testament plan of salvation. Consequently, there will be no effort made at entertainment, only in so far as the preaching of the Ancient Gospel and an Apostolic Simplicity of Worship will entertain honest and earnest hearers. The singing will be congregational and spiritual without mechanical assistance as these Christians believe that their hearts and voices are sufficient in singing praises to God.

WHAT MUST I DO TO BE SAVED?

This question will be answered each night just like it is answered in the Book of Acts by the Apostles of Christ. In so doing our aim will be to emphasize the supreme authority of God's Word.

Services 8:15 each evening—ten days only—You are cordially invited, will receive a hearty welcome and kind treatment.

NUMBER 41

MOTOR TRUCK LAW TO BE ENFORCED BEGINNING JUNE 12

Measure Imposes Somewhat Stringent Regulations On Vehicles for Hauling—Regulates Load and Speed of Each Truck—Assesses Tax Bases On Mileage Covered Outside Towns.

Motor trucks in Texas will be brought under the effects of a somewhat stringent law which becomes effective June 12. The measure was passed at the last session of the legislature and not merely increases the license fee for such vehicles, but imposes in addition a mileage tax based on the hauling capacity of the truck. The revenue from this will be devoted to the road and bridge funds of the respective counties. This tax applies only to travel outside the corporate limits of the city. The present license fees for heavy freight carrying passengers for hire are considered wholly inadequate to compensate for damages done to the public highways.

In brief, the law is one providing for and increasing the annual license fee on commercial vehicles; providing for applications for registration, how, and when said applications shall be made; defining a commercial motor vehicle; naming the net carrying capacity of such vehicles and the annual license fees to be charged in each instance; providing for annual license fee for trailers and semi-trailers and tractors; providing for fees to be paid on certain motor buses; providing penalties for failure to comply with provisions of this act; providing that the provisions of this act shall not apply to tractors used for agricultural purposes and road building; providing methods of determining horse power of certain vehicles; providing basis of weight and how to settle disputed classifications; providing certain described vehicles shall not be licensed or operated on public roads; providing for exceptions and special permits; and providing that liability shall attach for damages to highways and bridges in certain instances. It is one also providing for the registration of commercial motor vehicles and trailers operating over highways in this State in one or more counties; providing for keeping of records by owner of commercial motor vehicle, showing miles traveled in each county and report thereof, and providing speed limit per hour for vehicles of certain maximum weight when equipped with pneumatic tires and when equipped with solid tires, providing for use of governors on commercial motor vehicles; providing fee per mile for net carrying capacity in pounds of each stated vehicle and providing for division and distribution of mileage fees among certain counties.

Must File Application.

In order to provide funds to effectuate the provisions of this act on and after January 1, 1922 and annually thereafter on and after the first day of January, every owner of a motor vehicle, or trailer or semi-trailer or motorcycle in this State shall file in the office of the county collector of the county in which he resides or in which the vehicle he owns is being operated, an application for the registration of each motor vehicle or motorcycle owned or controlled by him. Applications shall state whether the vehicle is for operation in one or more counties. Each application shall be accompanied by the requisite fee for the number of unexpired quarters of the calendar year, which fee for the registration of a motorcycle shall be three dollars, and for the registration of a motor vehicle, except these hereinafter designated as commercial motor vehicles, shall be thirty-five cents per horsepower.

Tax For Equipment and Weight.

A commercial motor vehicle is designated as one with a net carrying capacity of more than one ton intended, designed or used for the transportation of property. For each commercial motor vehicle the annual license fee shall be based upon the net carrying capacity of the vehicle as follows:

Net carrying capacity in pounds	Annual license fee
2001-4000	\$.30
4001-6000	\$.50
6001-8000	\$.80
8001-10,000	\$.120

For each trailer or semi-trailer, the annual license fee shall be based upon

EARL OF MINTO CARRIES BRIDE INTO NEW HOME.

The Earl of Minto, who was married in Montreal, Canada, recently to Miss Marion Cook of Montreal, took his wife to his ancestral home in England and followed out the old custom which decrees that a bridegroom must carry his bride over the threshold of her new home. The custom is said to be a relic of the runaway marriages of olden times. The photo shows Lord Minto carrying the new Lady Minto into the house.

274 MORE SCHOOL PUPILS IN COUNTY

SCHOLASTIC CENSUS TOTAL IS 4,823 WITH 1,513 IN VERNON.

An increase of 274 is shown in boys and girls of school age in Wilbarger county over last year in the report which County Superintendent J. N. Fulecher is forwarding to the Superintendent of Public Instruction in Austin. The census shows 4,823 scholars.

Vernon has 1,513 scholars, 719 being white boys, 762 white girls, twenty negro boys and twelve negro girls. One hundred sixty-five scholars are credited to Odell, sixty-nine being white boys, ninety-four white girls and two negro boys. There are eighty-four white boys and ninety-four white girls in Harrold.

SCHOOLS TO PLAY DOUBLE HEADER

EACH GAME THIS AFTERNOON WILL LAST SEVEN INNINGS.

Vernon high school will meet North Fort Worth high school this afternoon in baseball at the fairgrounds in a double header, the first contest to start at 4 o'clock, according to a decision of the coaches made this morning. This alteration was made to better suit the convenience of both teams. Each game will last seven innings.

Baird, local southpaw, will in all probability pitch both games for Vernon, and Tarpley, captain elect of North Fort Worth and star twirler, will doubtless go the entire distance for the visitors. Tarpley is the lad who pitched in the game the locals lost to Fort Worth last week.

Teams In Good Condition.

Vernon has had but little practice this week, but according to Coach Winston, the men are in good condition. The games today will be the last of the season, win or lose for Vernon, and the Tarrant county team has no further games scheduled for the remainder of the season. According to A. J. Speece, Fort Worth coach, in the event Vernon is beaten this afternoon, he will run a challenge in a Fort Worth paper embracing all Texas and will play any team which has an unqualified right to be considered a title contender. North Fort Worth has played no games since the Vernon contest in that city last week, and the players are in best of condition. The first game this afternoon will be the fourteenth of the season for Fort Worth. Thus far the visitors have lost but one game, having been defeated by Denton at that town.

The Fort Worth team arrived this morning. Lineups this afternoon will be as follows:

North Ft. Worth—	Vernon
Joe Tarpley, 2b	Small, cf
Rosser, 1b	Larrimore, 3b
Holland, ss. (capt.)	Curtis, c
Washburn, c	Smith, 2b
Wolfe, lf	Delmasso, ss
Clayton, cf	Cabe, 1b
Clark, 3b	Parr, rf
Hull, rf	Hiatt, lf
Jack Tarpley, p	Baird p
Substitutes—Fort Worth: Hayes, Finney, Swallow.	

Vernon Defeats Chillicothe.

The Vernon town baseball team yesterday defeated Chillicothe in a game at the latter town 8 to 4. The locals held their opponents to no scores until the sixth inning, when Chillicothe got three hits and four runs, the Vernon team making two errors. Vernon got twelve hits in the game. The lineup for Vernon was Gifford, catcher; Johnson, pitcher; Ladd, first base; Carney, second base; Foster, shortstop; H. Teal, third base; Howard, left field; Carrington, center field; Castleberry, left field.

WILL NOT SANCTION FINANCIAL DRIVES OF OUTSIDE ORDERS

Local Commercial Organization Is Of Opinion That Vernon Business Men Have Been Too Heavily Called Upon—Ministers Ask That Foreign Donations Be Through Churches.

The activities of organizers and promoters of drive organizations outside of Vernon will hereafter not be sanctioned by the local Chamber of Commerce, according to an announcement of the manager yesterday. The commercial body will take the position that if individuals in Vernon care to make donations to the funds to be raised they may do so at their own volition, but the projects will receive no sanction from the Chamber.

This decision was made because of the efforts of an individual, representing himself as a State agent for the China Famine Fund, who yesterday attempted to organize Vernon in order to make a drive. He officers of the Chamber of Commerce were sought in order to stimulate the campaign, and when these were refused the promoter became highly indignant.

Too Many Campaigns.

He was informed that the local business men have been "driven to death," that besides being called upon to contribute to funds raised in their immediate community they have been the objects for solicitation from every imaginable charitable organization. It was pointed out that Hon. Long, assisted by a letter from the Chamber of Commerce, had canvassed several times local business houses for contributions to the famine fund, and that the efforts of the Celestial, together with donations from the local Baptist and Christian churches had resulted in a fund of approximately \$600.

A meeting of the local ministerial association was called Thursday at 1 p. m. and considered the plans of the promoter. It was decided by the ministers that if local persons cared to donate to the relief fund, it would preferably be through the missionary channels of the various churches.

BILLY K. NORWOOD WEDS.

Former Vernon Boy Is Married In Altus, Oklahoma and Will Live In Lawton.

William K. Norwood and Miss Gertrude Tate of Altus, Okla., were married in Mangum, Okla., Sunday, according to advice from Altus. The young couple will live in Lawton.

Billy K. Norwood is a son of Mr. and Mrs. H. W. Norwood of Vernon, and for some time was employed with The Record. His wedding was a surprise to friends here. Concerning that happy event, the following is taken from the Altus Times Democrat:

Mr. Norwood was formerly employed in the mechanical department of the Times-Democrat, resigning last Saturday to take up his new "duties." He never even told the boss what he planned to do and kept all of us in the dark. No doubt being a little excited—like nearly all of the fellows are, and for some reason of which we are unable to solve—bought his license here at the court clerk's office and journeyed over to the fair city of Mangum where he handed over the license to the minister, but Norwood, like other must obey the law—the law being that you must purchase the license in the county where you marry—was forced to buy another marriage license at the court clerk's office in Mangum.

The bride resided west of town for a number of years, is a charming personality and has a host of friends who will be pleased to hear of her marriage.

NEARLY 800 MEMBERS IN COUNTY FARM BUREAU

Close to 800 members have been obtained for the Wilbarger county farm bureau, according to R. D. Jones, local director of the campaign. The past week has been devoted to organizing local bureaus. Saturday at 2 p. m. a meeting will be held in the district court room for the purpose of electing county officers.

The bureau team that has been working in this county will go to Collinsworth county from here. From there it will go to Childress.

Cemetery Association To Meet.

The Cemetery Association will meet at 4 o'clock Tuesday afternoon in the auditorium of the Library building.

VERNON'S BATTERY THIS AFTERNOON.

Wallace Baird and Esker Curtis, who have been the mainstays of the local team during this baseball season. Baird is a left hander and has pitched consistent ball in every game in which he has worked this season. Last week, against the strong Abilene team, he allowed but two hits and struck out sixteen men, winning the game 2 to 1. Curtis is an exceptional player for a high school team, is captain of the local aggregation, possesses a fine throwing arm, and is a conscientious, heady player.

MANY TOWNS HAVE NEW COMMANDERY

CHARTERS WERE DELIVERED THIS WEEK TO DALHART, STAMFORD AND SPUR.

Right Eminent Sir Livingston Gardner Hawkins of Vernon is constituting new commanderies of the Masonic Lodge this week at Bowle, Childress and Seymour. He is also delivering charters to the commanderies recently established at Dalhart, Stamford and Spur.

Mr. Hawkins is accompanied by Right Eminent Sir J. C. Kidd of Houston, Grand Recorder of the Masonic Lodge for Texas. Mr. Hawkins is Grand Commander of the Grand Commandery, Knights Templar of Texas. He is devoting a great portion of his time to the interests of the Order of which he is such an enthusiastic member.

LITTLE WEEKLY GIRL DIES.

Child's Death Comes a Few Hours After Condition Takes Turn For the Worse.

Willie Mae Weekley, 10 year old daughter of Mr. and Mrs. Verna Weekley living about twelve miles southwest of Vernon, died Tuesday noon at her home after a short illness. The little girl had not felt well since Sunday, but her condition took a turn for the worse only the morning of the day she died. Her death is attributed to diphtheria.

Willie Mae was an exceptionally bright and animated child, and her sudden death came as a hard blow to her parents and friends of the family. She would have been 11 years old June 11, and attended the Kincheloe school. The little girl appeared in the piano recital of Miss Edith McCarroll's pupils Thursday, May 26, at the Methodist Church, and took her last music lesson the following Saturday. She is said to have swallowed a piece of ice Sunday and became slightly ill afterwards.

Funeral services for the child were conducted from the home of Morris Bonner in Vernon and Rev. R. V. Tooley of Tolbert officiated. Burial was in East View Cemetery. The girl was the oldest of three children.

Compliment Local Merchants.

The financial status of local merchants in regard to prompt settlement with the U. S. Government for luxury and war taxes is above the average for a town of this size, according to Federal revenue collectors here this week. There are few delinquents on the Vernon list, it was said, and the town is exceptionally good financial shape. Local business men were complimented for their prompt and honest reports.

P. M. Word Is Telephone Manager.

P. M. Word of Fort Worth is manager of the local office of the Southwestern Telephone Company. He succeeds E. L. Childress, who left Wednesday for Cleburne. Mr. Word does not expect to be in Vernon permanently.

Infant Has Broken Arm.

The two years old daughter of Mr. and Mrs. J. A. Simmons living on S. Bowie St. suffered a broken arm early in the week when she fell from a high chair. The little girl is improving rapidly.

J. T. FOSTER MADE PRINCIPAL OF THE LOCAL HIGH SCHOOL

Is Graduate of Chicago University and Has Had Six Years Experience in School Leadership—A. F. Winston Made Instructor in Science and Coach of Athletics.

J. T. Foster, principal last year of the Frederick, Oklahoma, high school, this morning was elected by the local school board to the principalship of the Vernon high school. Mr. Foster is a graduate of Chicago University, and has had six years' experience as principal of schools. He will return this summer to Chicago to get a master's degree. He will teach mathematics in the local high school. Mr. Foster is a native of Mississippi.

A. F. Winston was elected head of the science department and athletic coach for the local high school, and announced this morning that he would accept the place. At present Mr. Winston is connected with the Renfro Hardware Company, and is coach of Vernon high's pennant contending baseball team. He has had considerable experience as a teacher, serving here in that capacity in 1915-1916, and resigning a tendered principalship to go to San Marcos Baptist Academy as coach and instructor in 1916-1917. He was dean of Wayland College 1917-1918, and held the principalship of the Cripple Creek, Colo., high school from 1918 to 1920. Mr. Winston will teach physics and chemistry. He is a graduate of Colorado College.

Want Grounds Beautified.

Further business at the school board meeting dealt with the issuance of instructions to the city superintendent to cooperate to the fullest extent with the local Parent-Teachers' Association toward putting the local school grounds in the best condition possible. This will consist of sowing grass, filling up washed places, and making the premises as attractive as possible. The city will be asked to remove rock that has been dumped on the grounds of the Shive school.

It was brought out at the meeting that there is no room in the present high school building for manual training, home economics, nor domestic science departments. A suggestion was offered to construct shacks on the grounds to be utilized for these departments, but this project was voted down. Board members do not consider the issuance of bonds advisable at this time. J. A. Birdsong, newly appointed school member, to take the place of E. M. Rogers, took the oath of office this morning.

WEDS CROWELL MAN.

Miss Mary Louise Garrett and Jess E. Davis Are United At Bride's Home Sunday Afternoon.

Miss Mary Louise Garrett, daughter of Mr. and Mrs. James Garrett, and Jess E. Davis of Crowell were married Sunday afternoon at 2 o'clock at the home of the bride's parents on West Wanderer Street. Only a few immediate relatives were present at the ceremony which was performed by Rev. W. T. Rouse. The young couple left immediately for Crowell to make their home.

Mrs. Davis has lived in Vernon two years, coming here with her parents from Crowell. She was born at Tulsa, and her parents are planning to remove there in the near future. The bride attended school in Crowell and was graduated from the high school at that place. After coming to Vernon she was in the employ of The Vernon Record for several months. She was a student last year in the College of Industrial Arts at Denton.

Mr. Davis is in the grain business at Crowell. He served overseas with the American Expeditionary Forces during the World War.

Mrs. J. H. Hansen Dies.

Mrs. J. H. Hansen, formerly a resident of Vernon, died at her home in Walters, Okla., today, according to word received by friends in this city yesterday. Mrs. Hansen and her husband, Dr. Hansen, lived in Vernon for a number of years, having moved from here to Oklahoma about twelve years ago. The latter has been dead three years. Mrs. Hansen is survived by six children, four of whom are married.

DISCUSS RATES FOR PUBLIC UTILITIES

COMMITTEE OF BUSINESS MEN PRESENT DATA TO CITY COMMISSIONERS.

An informal discussion was held Tuesday afternoon before city commissioners by R. L. More, Frank Masie, and the manager of the Chamber of Commerce on rates for electric lights, telephones, water, ice, and gasoline. Discrepancies between charges made for some of these commodities here in comparison with other places were pointed out. Data already gathered by a committee of the Chamber making an industrial survey was also submitted to the commissioners. No action was taken toward effecting a price reduction in any of these commodities.

Further business dealt with the issuance of instructions to the city attorney to instruct the Texas Public Service Co. to comply with State laws and put all its wire in good condition. It is alleged that much insulation on the company's wire has worn off.

Ordinance 381, dealing with the parking of vehicles for freight hire, was read and passed for the second time. The measure would prohibit all freight vehicles for hire from parking on Main St. between Marshall and Maiden Sts. and within one block of Main St. on all intersecting streets between Marshall and Maiden Sts.

J. A. Birdsong was appointed school trustee. He takes the place of E. M. Rogers.

It was announced to the commission that the city has sold \$10,000 worth of water works and sewer extension bonds. The bonds were originally bought for the permanent improvement fund. This is what is known as a Class 3 investment.

CLUBS AND LODGES

Will Have All Day Meeting.

The Missionary Society of the Methodist Church will have an all day meeting in the church Monday. The morning will be devoted to devotional services and reports from the various circles. Circle 4, of which Mrs. E. L. McHugh, will serve lunch at noon to those present and to some business girls. From 2 to 3 o'clock the Rev. S. W. Hayne will conduct his Bible Study class and the next and last hour will be devoted to business. During the summer months the Missionary Society will meet but once a month and will hold an all day session on each first Monday.

FOARD COUNTY AGENT MARRIES MARGARET GIRL

Miss Elgie Bagley, daughter of Mr. and Mrs. James Bagley of Margaret, and P. D. Chaney of Crowell were married Wednesday afternoon at 2 o'clock by Rev. S. H. Holmes at his residence. The young couple left after the ceremony by automobile for Mineral Wells and will be at home in Crowell after June 10.

The bride formerly taught school in Foard county, and Mr. Chaney is county agent there.

Card of Thanks.

We wish to thank our many friends for the sympathy and kindness shown us while in Vernon, waiting for the train to bear our dear one to Davidson, where she was laid to rest. And when your hour of sorrow comes, which must come to all, our desire is that your friends may be numerous to minister to your every wish and comfort, as you have ministered to ours.

MR. AND MRS. W. A. SMITH.

Amount of Wage Cut Not Known.

No estimate is had here as yet by local railroad agents on the amount of wage cuts in each office due to the recent decision of the U. S. Railroad Board to pare the expenses of the railroads. At the Frisco office the amount was placed in the neighborhood of \$100 per month, but the Denver office was unable to estimate the cut.

Frank Fletcher went fishing last night to Damsite.

Miss Allie Randall returned Tuesday from a visit in Electra.

S. D. Causey of Thalia was in Vernon Thursday.

Dave Gfeller and William Schur, living southwest of town, were in Vernon Wednesday.

Jack Blanton, youngest son of Mr. and Mrs. J. S. Blanton, has arrived home from Austin where he has been attending a school for the deaf.

Mr. and Mrs. S. A. L. Morgan and son, John, of Wichita Falls are visiting in Vernon today. Accompanying them are Mr. Morgan's sisters, Misses Beatrice and Johnnie.

WHITE CITY GIRL MARRIES YESTERDAY

MISS EMMA LOU COVERT BECOMES BRIDE OF AMARILLO MAN.

Miss Emma Lou Covert, daughter of Mr. and Mrs. W. B. Covert of White City, and Finley Kerr of Amarillo were married Thursday afternoon, June 2, at the home of the bride. Rev. S. W. Hayne performed the ceremony and only a few intimate relatives and friends were present. The young couple left immediately after the wedding, which took place about 3 p. m., for Amarillo where they will make their home.

Miss Emma Lou Covert has been principal of the White City school for two years, and was born and reared in this county. Her parents are well-known, and her father is recognized as one of the county's most prosperous farmers.

Mr. Kerr is a farmer near Amarillo. He met his bride while she was attending school at Canyon some time ago.

At the Pictorium.

Today—Franklin Farnum in "The Struggle."

"Western" in movie parlance the hero and the first scenes are Eastern. Franklin plays with all his accustomed vigor the role of a reckless New York youth in whose blood still runs the war heat and fever. The commonplace hum drum of civil life does not satisfy this roistering youngster and he goes forth like a modern Don Quixote in search of stimulating thrills. His first adventure brings him for the first time in contact with a ravishingly beautiful Western girl. His second escapade nearly costs him his life. As a result he is forced to flee from home to escape the penalty for killing a man.

Saturday—Corinne Griffith in "What's Your Reputation Worth?"

This is the strange story of a girl so impressed by a strange dream that she made it come true. She gave her reputation to the man she loved in order that she might find happiness, but she had a hard struggle and went through many unusual adventures before she found it.

Monday—Will Rogers in "An Unwilling Hero."

He is "Whistling Dick," the happy hobo, and it is predicted that his audience will love him more than they did Jubilo, another characterization of Will Rogers.

At the Opera House.

Today—"Behold My Wife," a George Melford production.

Embittered with life, a proud aristocrat sneeringly marries an Indian squaw. Then he sends her home to disgrace his family and he himself sinks to the dregs in a lumber camp in the North. But one day the man in him awakes and he seeks the pitiful creature whom he wronged. When he finds her she is a beautiful woman, moving in the cultured class, and she is the mother of his son. It is his indeed to seek forgiveness then.

Saturday—Tom Mix in "The Ridin' Romeo." Also last episode of "Eddie Polo of the Circus."

Monday—Mae Murray and David Powell in "Idols of Clay."

The man had worshipped a beautiful woman, had laid all his hopes and love at her feet only to find her cold and killing mockery. He girl had worshipped her father, only to discover in him a murderous rogue. So here "Idols of Clay" is a little more clay in the more of an underworld dive. Put the clay was warm with youth and in it was the glimmer of old, fine dreams, and out of it came at last finely molded characters.

Will Indicate Fire Is Out.

After each fire hereafter the siren on the city hall will be sounded to indicate that the blaze has been put out, according to an announcement yesterday of B. A. Williams, chief. This will be done to quiet the fears of the public and let them know that danger is over. The order was made effective June 1.

Judge and Mrs. W. D. Berry left Thursday for a visit in Fort Worth and Mineral Wells.

Mrs. W. P. Garvin left Wednesday for Iowa Park to visit her daughter, Mrs. R. C. Pace.

U. S. Davis and T. J. Summerour left today for Littlefield and other points on the South Plains.

Mrs. M. E. Kelly returned Thursday from a week's visit in Fort Worth and Dallas. While in the latter city she was a guest in the home of Mr. and Mrs. H. H. Marr.

RECEIVES DEBT OF 31 YEARS STANDING

Thirty-one years ago G. W. McCluskey and G. T. Tucker decided to "swap" wagons. It so transpired that Mr. Tucker possessed a wagon of more attributes than that of his co-dwellers in Rockwall county, and it was agreed that he was to receive six dollars as a bonus in the trade. But lean times are not a product of modern, twentieth century modes of life, and Mr. McCluskey had not the wherewithal to settle the balance of the debt. Accordingly Mr. Tucker was presented with an I. O. U. for the six dollars, and he simply "tuck 'er" and went on. As was first remarked, that was thirty-one years ago and both men naturally drifted far from the scene of their bargain.

Came Here 14 Years Ago.

Mr. Tucker came to Vernon fourteen years ago, and in the course of acquaintanceships, made that of Jim Howell, of Altus, Okla. Mr. Howell visited in this city frequently, but never until this week did he mention to his friend McCluskey in Altus that a Mr. Tucker was living in Vernon. However, during a conversation recently the Vernon friend was mentioned, and his name immediately conjured up in the mind of McCluskey a vision of six dollars long overdue.

The result was a letter offering profuse apologies for the belated payment an explanation embodying the fact that the sender had searched through all the years for the man to whom he owed the trifle, and in addition, there was a check for six dollars with the hope that its receipt would prove as much profit as it would have thirty-one years ago.

Marriage Licenses Issued.

Marriage licenses were issued May 31 to Thomas W. Glasgow and Mrs. Eva Woolsey of Electra, and June 2 to P. Finley Kerr of Amarillo and Miss Emma Lou Covert of White City.

Convalesces From Operation.

Mrs. J. F. Gregory, who underwent an operation for appendicitis Monday, is doing well.

Mrs. W. R. Moore is in Spur visiting her mother and sister.

L. K. Johnson went to his ranch near Crowell Wednesday.

A. Allison has returned from a trip to Oklahoma, where he was called to look after some of his farms.

W. M. Hogan of Gainesville is visiting his daughter and son-in-law, Mr. and Mrs. Edgar McHugh. Accompanying him are his daughters Misses Mildred and Julia, and his son Roy.

Tanlac Elements Come From Many Lands Far Away From Here.

The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth, and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio, and Walkerville, Canada.

The Alps, Appennines, Pyrenees, Russian-Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac which, according to recent reports, is now having the largest sale of any medicine of its kind in the world; over 20,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, bark and flowers are received in their rough

state from all parts of the globe until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada to supply a demand never before equalled by this, or any other medicine.

Tanlac is sold in Vernon by Ferguson Drug Company, in Odell by R. J. Belcher, in Harrold by Wilson Drug Company and druggists everywhere. It

COUNTY GIRLS TO HOLD ENCAMPMENT JUNE 28-JULY 1

Home Demonstration Clubs Will Conduct Annual Outing In Allingham Park—Program Of Interest Is Arranged For Entertainment Of Girls—Mothers Are Invited.

The annual encampment of girls in the county home demonstration clubs will be conducted from June 28 to July 1, according to an announcement of the local agents, and the site for the outing has been selected as Allingham Park. Every club member will receive an individual letter urging her to attend and to bring her mother as well. There will be no money charges made, but each person in attendance will be expected to bring some produce to contribute to the general larder. This produce will be of the sort raised on the average farm.

There will be early morning songs, swimming parties, trips through local business establishments including the Kell Mill and Vernon Record plant, hikes to nearby points of interest, band concerts, a daily hours of club work, a "quiet hour," a daily lesson in physical education, and other recreations. Arrangements are being made to bring some well-known Texas people here to make talks to the girls, and local speakers will also be called upon.

Capable Chaperons Provided. Capable chaperons have been provided, and any mother is welcome to accompany her girl. In addition to the home demonstration agents who will be in charge, the county Red Cross nurse will attend and care for the health of the party. The girls are asked to furnish a quilt, blanket, and pillow, or two quilts and a pillow. Each will need a gingham dress, or dark skirt and white middie, a pair of comfortable shoes for walking, a swimming suit, uniform cap and apron, and a white dress or middie suit.

Following is a partial list of the supplies that will be necessary at the camp, and each girl is asked to bring one or more articles of the list. There will be needed four pecks Irish potatoes, four pecks sweet potatoes, four dozen eggs and four pounds butter, four gallons buttermilk daily or two gallons sweet milk, one sack flour, one sack cornmeal, one gallon preserves, four jars of jelly, jam, or marmalade, four chickens, and one ham.

NOTARIES EXPECTED TO QUALIFY LAST WEDNESDAY

Commissions of all notary publics expired Wednesday, and all were expected to qualify by that time. The only legitimate excuses accepted by the county clerk are for absence from town and sickness. Ten days from the date of notification are given to qualify.

Notaries cannot take an acknowledgment until they qualify.

NEW YORK TRAFFIC POLICE EQUIPPED WITH SIGNAL LIGHTS

A new signal device to be used by the night traffic policemen of New York City was demonstrated by Department Commissioner Dr. John A. Harris, who originated the device. It consists of three lights, red, white and green, and is suspended upon the chest of the officer on top of a sort of apron-like jacket. The device is operated by tiny electric switches, one for each light, and is really a miniature model of the signal lights on the huge traffic towers erected on the busy main thoroughfares of the city. It performs the same duty while eliminating the necessity of erecting the signal tower. The photo shows an officer equipped with the device.

DOG WEARING CHIN WHISKERS IS DEAD

OIL MAN'S SNOW WHITE HAIR
AND BLACK EYEBROWS WERE
SPECTACULAR.

"Born June 3, 1917; died June 3, 1921." This is the chronology which will appear on the epitaph to Oil Man, after he is buried at 3 o'clock today.

Oil Man died the night he was 4 years old. Cause of his death is unknown. He was found this morning in the street near his home, stiff in a pool of water.

Oil Man was owned by Dr. A. P. Howard, and had attracted attention as far away as New York City. He was Spitz and Poodle, and an aristocrat among dogs.

With chin whiskers, four inches long, and with black eyebrows, Oil Man was a spectacular figure. His hair when full length was 6 1/2 inches long, but it was worn clipped close, and was snow white, adding to his striking appearance in contrast to the black eyebrows and long chin whiskers.

Another claim to distinction by Oil Man is that he rode in an airship. Dr. Howard says Oil Man is the only dog in this section which has gone 3,000 feet in the air in an airplane.

TRUCKS VS. LOCOMOTIVE.

The railroads of Great Britain want to get off of rails, according to a state-
ment in the Dallas News. They wish to
try the highways awhile.

It is said that during the recent war
motor trucks saved England from
starvation.

While the situation in Great Britain
is dissimilar to any but the more
thickly populated sections of the
United States, and admitting that the
motor truck may be used much more
advantageously when traffic is heavy,
and on short hauls—the fact remains
that there are a multitude of advan-
tages in favor of motor over steam en-
gine in this country, and particularly
as regards hauling to rural districts.

We would be wise to recognize the
potentialities of the motor truck and
understand how great will be the ad-
vantages of that community with roads
which makes hauling by truck easy.
Contrariwise, any community without
permanent good roads handicaps itself
terribly in the race for commercial su-
premacy, as well as in the inconven-
iences which its residents are made to
undergo.

The idea in this for Wilbarger coun-
ty is that we must begin an extension
of the permanent road recently laid
in Defined District No. 1. Despite the
efforts of our commissioners (and
they have worked untiringly) many
miles of the main highways in Wilbar-
ger county are distressing.

If it were possible to drag these
roads frequently their life would be
extended, especially during those sea-
sons when rain is frequent. Just now
dragging would be of no avail.

Wilbarger must have permanent
good roads.

MARGARET IS FIRST.

The Margaret Methodist Church had
pledged \$200 more than its quota of
\$3,248 to the educational fund by mid-
afternoon Sunday. It is the only com-
munity in the Vernon district to report,
as yet, that it has pledged its quota.

Margaret's action is all the more
gratifying when it is considered that
the community is entirely rural and
the farmers are generally supposed to
be more discouraged than are town
people. The act is undoubtedly one of
fine faith in an all-wise God and in
the productivity of our soil during
the next five years.

The only basis on which the attitude
of many people toward this momentous
question can be understood is that
they have not visioned its far-reaching
consequences. Few men in Wilbarger
county, at least, but believe that with-
in the next five years we shall all en-
joy another era of prosperity. They
know, too, that they can pledge \$10 to
\$25 a year without any serious incon-
venience, because if the \$10 can not
be paid this year, why it can undoubt-
edly be paid next year. And if God,
or our own misfortunes, scourge us
so that it is impossible to pay—why no
one will upbraid.

How men and women can refuse to
pledge \$10 to \$50 a year to this—the
most far-reaching effort of their
church—and spend from two to three
times as much in club dues or on social
amusements, is an unsolved problem.

This is a supreme testing time for
men and women of Methodist faith,
just as last year was for the Baptists
who pledged \$90,000,000, and for the
Presbyterians and Christians.

TESTING THE DRY LAW.

Not nearly all of the "tests" to which
the prohibition law is being subjected
are of a legal nature. The most cruel-
ing tests are those of unscrupulous
men who have a personal interest in
perpetuating the liquor traffic, and of
those who are so selfish that they give
self interest and lust precedence over
community or general welfare.

Never was a restrictive statute en-
acted—a law designed to remove some
evil from the body politic—but that an
extra effort was made by those inter-
ested in the perpetuation of the traf-
fic or practice.

If the proponents of liquor can dis-
credit prohibition it is reasonable to
expect, at least from their standpoint,
that the law will be repealed. With
flagrant violations of the prohibition
law many good people tend to espouse
the opinion that "regulation" is better
than prohibition.

Entrenched evil dies hard. The whis-
key ring had its fingers reaching into
every phase of our national life and
the social order. We may naturally
expect a desperate struggle before the
thing is made to realize that its day
has gone.

With all of the lawlessness of boot-
leggers, and the numerous killings of
enforcement officers, the fact remains
that there is a great deal less of crime
and fewer men are killed in the efforts
to enforce prohibition than when the
open saloon was "regulated."

WILL RATES GO DOWN?

If the cut of 12 per cent in the wages
of railroad employes means a saving
of \$400,000,000 to the railroads, it is
natural to expect a modification of
freight rates within a short time.

Wages of the employes are not to be
lowered until July 1.
Naturally railroad executives are
disappointed. They were anxious to
wipe out the \$600,000,000 increase of
last year. It is equally true that the
employes are disappointed. With low-
ered living costs their pay was enabling
them to enjoy more of the pleasures
which money will buy, and it was
hardly to be expected that the men
would voluntarily give these up.

In the same spirit, the railroad heads
declare that a reduction in freight or
passenger fares is impossible. The
thinking by-stander knows this is not
true. He knows, too, that the life of
the nation depends on less expensive
exchange of commodities, and he be-
lieves that the railroads will profit
more when rates are lowered because
of the increased volume of traffic.

Patience, a vision, good cheer, and
the spirit of the Good Samaritan are
our greatest needs during the period of
readjustment.

THINK SUPPLY OF GRAIN CARS WILL BE AMPLE

A plentiful supply of grain cars to
move the local crop is anticipated by
agents of the Denver and Frisco rail-
roads, and it is said that cars are be-
ing stored up and down both lines.
Much depends, it was pointed out, upon
how soon shippers wish to move the
grain. If it is carried out gradually
no trouble is looked for.

Another point to be noted is the fact
that other kind of freight is moving
more slowly now than at the same
time last year. This will help provide
an abundance of cars.

Lay Water Extensions.

City workmen are laying a new wa-
ter main on London St. between S.
Cumberland and S. Bowie Sts. Other
extensions contemplated are on Wheel-
er St. from Wichita to Yamparika,
west on Yamparika to Tolar, and from
Pease to Texas Sts. through the center
of the block between Eastland and
St. James Sts.

On the Way to Recovery.

After a trip through Illinois, Miss-
ouri, Kansas, Oklahoma and Arkansas,
Governor Harding of the Federal Re-
serve Board declares that his con-
viction that the worst is over and we
are now on the way to recovery has
been confirmed by the trip.

Governor Harding says:
"The trip confirmed my conviction
that we in this country have now
passed the most trying period of the
world-wide readjustment of trade and
prices and are on the road to recovery.
We are approaching the new crop sea-
son with underlying conditions far
sounder and more favorable than they
were a year ago, and, in spite of the
unprecedented carry-over of cotton and
grain, largely financed on bank credit,
the reserves of the Federal Reserve
system are nearly 40 per cent higher
than they were a year ago, which
leaves no room for apprehension re-
garding the financing of either agri-
culture or industry. Indeed, with the
Federal Reserve Banks ready, as us-
ual, to extend liberal credits to mem-
ber banks for the legitimate require-
ments of their customers, bankers
everywhere seemed disposed to dis-
miss credit as a factor of uncertainty
or concern in the marketing of the
new crops."

This is reassuring and it is in keep-
ing with the opinions expressed in
other authoritative quarters as to the
future. The process of recovery may
be slow. But it has certainly begun.—

LOCAL OPEN SHOP ASSOCIATION WILL CONTINUE ACTIVE

Directors Issue Statement Setting Forth Why Organization Should Flourish in Every Community in America—Aided in Bringing Industrial Peace to Vernon Is Claim.

The Vernon Open Shop association will continue to operate here. This is done, its directors state, both because the successes of the past year justify its continuation and because that the radical elements ought to be held in check. A signed statement to that effect was issued by the directors following a meeting of the board yesterday.

Carrying the signatures of J. A. Birdsong, Daniel Bond, Emory Rhoads, W. N. Stokes, H. B. Wilhelm, Les. K. Johnson, W. O. Anderson and R. H. Coffee, the statement reads:

"The principles of the open shop are fundamentally American and should be given an opportunity to flourish in every community in America. These principles are: Every man has a right to work regardless of his affiliation or non-affiliation with any organization; a dollar's worth of work for a dollar in pay, and a dollar in pay for a dollar's worth of work.

"The Vernon Open Shop association has been successful since it was organized a year ago. We have aided in bringing to Vernon industrial peace. We have helped create a situation whereby workmen quit loitering on jobs and have tried to give an honest day's work. We have brought about a condition under which the various unions have dropped their affiliation with one another.

"That our association has proven a benefit to both the laboring men and the public, we cite the fact that we have found jobs for 204 men and women. Of this number, 81 held union cards. The number of union people furnished with jobs ought to prove that we are not fighting the unions, although radicals in Vernon have said so. We are fighting for the laboring rights of American working men to work and receive a day's wage for a day's work and give a day's work for a day's wage. For the carrying out of the open shop principles, we invite the cooperation of every citizen and the aid of every organization."

JUNE TIME—NATURE'S SEASON—HAS COME

It is June time,—the season of Nature's hey day, of green trees and grass, of mossy banks, of singing birds, and harvesting of crops. It is the time when "A young man's fancy," a time of halcyon, balmy days, of moonlight nights, and warm, scented air.

There comes to one in June, somehow, the sensation of being brought closer to the great out-of-doors, of feeling subtly the pulsating, vigorous life that throbs through plant and brush, and there comes the desire to woo Nature at a time when her moods are less varying than at other seasons of the year. There comes into mind Lowell's immortal conception of the beauties of the month as he has Sir Launfal set out in quest of the Holy Grail at a time when "every clod feels a stir of night, an instinct within that reaches and towers." And the little bird sits at his door in the sun allowing his illumined being to overwarm with its deluge of summer just as surely today as he did when the poet conceived his masterpiece.

Out-of-Doors Lures.

The lure of stream and field exercises no such power at other times as in June. Woods are in their bravest garb, trees cast their deeper shadows, and the dots of sunshine that trickle through the leaves add a setting that cannot be imitated at other seasons of the year. Fish rise to the baited hook with more than their usual precocity, there is a subdued murmur of life out-of-doors that hails the senses into the pure enjoyment of being alive and one at one in the great order of things.

June,—June with its love, with its hopes and its yearnings. June, when the warm ear of Nature is laid softly over the earth and tunes the world to its proper pitch. It is the month when the out-of-doors exhibits its finest wares, when there is struck to even the most prosaic heart the chord that whispers softly, "Rejoice, rejoice, for it is June."

Let Us Show You

Foster's Weather Report.

Washington, D. C., June 3, 1921.—Some small unimportant warm waves, storm waves and cool waves will occur during the week centering on June 11 but they are not worth a write-up. At the date of this Bulletin the great storm period predicted for first part of June, fully described in last Bulletin, is expected to be of considerable interest and, after its cool wave passes, temperatures are expected to make a general, gradual but great rise and good cropweather will be the result.

During first part of week centering on June 15 a general storm will appear in the Alaskan northwest. The word storm does not mean danger; it means the same but is better than to say weather disturbance. These storms are one of the all-important weather features. Were it not for them we would get only the ancient mists that prevailed before the Moon came to the Earth.

The warm wave of this storm will cover all the northwestern part of the continent and its center will cross to the east side of meridian 90 near June 15, take the usual course for this season toward the southern Alleghenies and then northeast toward Newfoundland. The center of the low or storm wave is expected to cross meridian 90 near St. Louis about June 16, reach the eastern cotton states about 18 and

Newfoundland 20. Not much of a cool wave will follow but the preceding warm wave will bring higher than usual temperatures.

Rains from this storm will be much less than will have come from the storms earlier in June. Their distribution will be much the same as for earlier rains of this month. Storm forces of middle of June will be moderate but will increase toward end of month. No hail is expected during the week centering on June 15.

I have tried to teach my readers how rightly to interpret these forecasts and they are making splendid progress. They must have intelligence and information before they can get the full benefit of my rainfall forecasts. All now understand the moisture for this five months cropweather period is coming from a vast section of the Atlantic ocean that lies between Newfoundland and Ireland and is being carried westward by the highs that move eastward. This moisture is condensed into rain as it enters the lows or storm centers but most rain occurs where the westward moving moisture strikes rising lands and least on the westward side of the hills or ridges or mountain crests.

But it makes great difference as to where you are located. In the early part of the storm path, in Alberta or B. C., the rains will be in the south east or south quadrant or quarter of

the storm. But if the storm center is in Florida the rains will be in the north or the northeast quadrant of the storm. Lay out the storm path on your map of this continent and then estimate where most rain will fall when the storm progressing eastward, reaches your longitude.

I am expecting the average rainfall for June on this continent to be above normal in sections near the Atlantic and Pacific coasts.

Very severe and crop damaging storms followed by killing frosts in northern sections are expected during the ten days centering on June 4. That will be the time for farmers to sell their wheat and dealers to sell September deliveries of oats and corn.

The Fordson saves from thirty to fifty per cent of the farmer's time.

The Fordson plows, harrows, drills as much ground in the same time as from six to eight horses. The Fordson will pull an eight-foot binder and a small thresher.

The Fordson does for the farmer just what machine power does for the manufacturer—it enables him to manufacture his product at less cost. And that is what the farmer wants to do; grow his crops more cheaply and make his margin of profit greater. And the Fordson will help him do it.

RAIN LAST NIGHT OF GREAT VALUE

ROW CROPS ARE NOW PRACTICALLY ASSURED OF A GOOD STAND.

Heavy rain which fell last night in Vernon and vicinity is estimated to have been worth thousands of dollars to Wilbarger county farmers. It was the first precipitation of consequence for many weeks, and a blessing to the row crops which could not have survived much longer without moisture. Corn and sorghums benefitted especially by the downpour, and were given such a good stand that a good crop is almost assured.

Cotton, too, has benefitted immensely by the rain, and it will now be possible for farmers who have postponed planting to put their crop in. That already in the ground will be given a good stand. More rain would still be decidedly welcome, according to the county agent, but the fact that today has remained cloudy has aided in keeping the moisture in the ground.

Rained Some Over County.

Practically the same rainfall was reported from all parts of the county with the exception of the extreme eastern part. North of the river the precipitation was about the same as at Vernon, west and southwest it was even heavier. There was a good shower at Oklaunion, but only a sprinkle at Harrold. The rainfall locally amounted to .9 of an inch. The rain started about 9 o'clock and continued intermittently until about midnight.

R. M. Bardsoll went to Dallas Monday on a business trip. He returned yesterday morning.

MEXICAN PRESIDENT IS WARNED OF MADERO'S FATE

"Beware the fate of Francisco Madero, who failed to heed solicitations to change his policy and fell," was the warning sent to President Obregon of Mexico by Liberal-Constitutionalist members of the Chamber of Deputies and the Senate. The warning was contained in a memorial drafted at a caucus of the party and it made pointed charges that two of President Obregon's Cabinet officers had attempted to cause dissatisfaction against the Administration and were using their offices to propagate radicalism. The document was signed by 138 deputies and several Senators.

ACREAGE REDUCTION IS APPRECIABLE

TEXAS HAS THIRTY-TWO AND ONE-HALF PER CENT LESS LAND IN COTTON.

A report from the State Department of Agriculture of Texas indicates that a cotton acreage report from 182 counties shows a reduction averaging thirty-two and one-half per cent. The crop, it is said, is two weeks late and conditions are not favorable. The reports have come from field agents, farm demonstration agents, bankers, secretaries of farmers' institutes, and hundreds of individual farmers. The data has been gathered from nearly all the largest cotton producing counties in the State.

The report, summarized, is as follows:

Total acreage planted to cotton last year—12,576,000.

Total number of bales produced—4,130,000.

Total acreage planted this year—8,488,850.

Total acreage reduction—4,087,140.

Total percentage of reduction—32 1-2.

Based on yield of last year, this crop should produce—2,787,750 bales.

Estimate Too High.

This estimate, it is said, is too high as the crop is two weeks late, and no fertilizer is being used. It is thought that the yield for Texas will be reduced to 2,500,000 bales. Feed crops, including corn, oats, grain sorghums, peas, and peanuts have been increased about 25 per cent, and 7 per cent of land planted to cotton last year is lying out. All reports are said to indicate more supplies grown for home use.

Reports from official sources in other states show the following reduction in cotton acreage: Alabama, 20 per cent; Arkansas, 30 per cent; Florida, 50 per cent; Georgia, 45 per cent; Louisiana, 30 per cent; Mississippi, 35 per cent; North Carolina, 30 per cent; and Tennessee, 50 per cent, making a total reduction of 35 per cent for all cotton states reporting. Based upon last year's yield of 13,365,754 bales, this reduction would give 8,687,741 bales for the United States. Since the condition of the crop is poor, the amount of fertilizer reduced 75 per cent in the states, and with an unusually mild winter to facilitate the depredations of insect pests, it is believed that this estimate is conservative, and that the price of cotton should advance when the acreage and condition report of the Federal Government is received.

Citizens Military Training Camp.

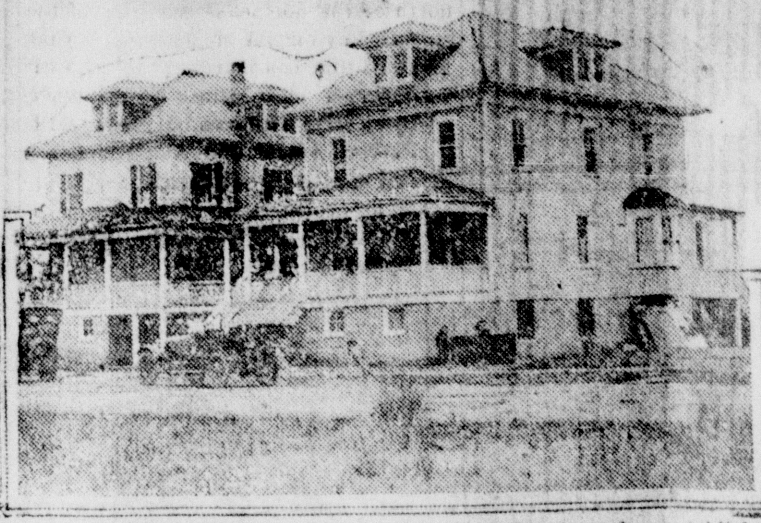

Gen. Pershing emphasizes the obligation of every citizen to prepare himself to serve his country in time of danger and voices the importance of a trained citizen reserve. He strongly advocates the training which is to be furnished at the Citizens' Camps not only as a valuable asset in the up building of the Organized Reserve but especially as a personal benefit to the individual. He also urges the perpetuation of the veteran National Guard and the National Army units as the foundation of the great citizen Army upon which the nation must rely.

MOTOR TRUCK LAW TO BE ENFORCED BEGINNING JUNE 12

(Continued from Page 1)

The tire equipment and gross weight of vehicle and load as follows:

100 lbs. gross weight and load	
Pneumatic tires	15c
Solid tires	25c
Iron, steel or other hard tires	35c

For each tractor the annual license fee shall be based upon the tire equipment and the weight of the tractor as follows:

100lbs. gross weight and load	
Pneumatic tires	25c
Solid tires	35c
Iron, steel or other hard tires	50c

Are Certain Exemptions.

Owners of passenger motor vehicles that have a seating capacity of more than seven passengers shall pay in addition to the fee of thirty-five cents per horsepower, and additional registration fee of one dollar for each number of passengers the motor vehicle will seat in excess of seven passengers. Tractors used exclusively for agricultural purposes, fire engines, road rollers, steam shovels and other road building and agricultural machinery, shall not be required to be registered. Any person or persons driving or operating or permitting to be driven or operated any vehicle whose gross weight exceeds the maximum weights prescribed herein shall be guilty of a misdemeanor, and upon conviction shall be fined in any sum not exceeding two hundred dollars.

The owner of any commercial motor vehicle or trailer having a net carrying capacity of more than one ton shall make application to the county tax collector accompanied by the registration certificate, or certified copy thereof, showing said motor vehicle or trailer to be registered under existing laws, and which application must show the carrying capacity in tons of said motor vehicle or trailer for the further license to operate said motor vehicle or trailer, which application shall be sworn to, and, as far as practicable, shall state the general route or routes and the estimated mileage thereof in each county or counties over which it is proposed to operate said motor vehicle or trailer, but such mileage shall not include the streets of any incorporated town or city.

Regulates Speed.

The owner of each commercial motor vehicle or trailer registered hereunder shall keep in a separate book or books kept for that purpose, an account of the number of miles traveled by said motor vehicle and trailer attached thereto. If said motor vehicle or trailer is operated in more than one county, an accurate account shall be kept of the miles so traveled in each county. Said books shall at all times be kept open for the inspection of the county tax collector or duly authorized agent.

Motor vehicles of the kinds and weights specified shall not be operated on the public highways of this State at greater rates of speed than herein prescribed. Equipped with pneumatic tires this is:

Maximum weight, including gross weight of vehicle and load—Speed

Limit miles per hour	
4,000 lbs.	15
6,000 lbs.	12
8,000 lbs.	10
10,000 lbs.	10
16,000 lbs.	10
20,000 lbs.	10

Any person who shall operate a motor vehicle at a greater rate of speed than that herein allowed shall be guilty of a misdemeanor and punished by a fine of not less than ten dollars nor more than two hundred dollars, or by imprisonment in the county jail not more than thirty days. No commercial motor vehicle of the kinds and weights prescribed herein shall be operated on the public highways of this State unless equipped with a mechanical device or governor so that it cannot be operated at a speed in excess of the limits prescribed herein.

Must Make Statement.

On January 1, April 1, July 1, and October 1 of each year, the owner or owners of each commercial motor vehicle or trailer licensed as provided for in this act, shall make a statement duly sworn to by himself, directed to the tax collector of the county where said owner has his principal office or place of business, which statement shall clearly show the number of miles traveled during the preceding quarter in each county by said commercial motor vehicle or trailer while being operated outside the limits of incorporated cities and towns. Said statement shall be accompanied by a sufficient sum of money in lawful money of the United States, as a reasonable license fee for the extra burden placed on said highways and roads by the operation over them of the character of motor vehicles licensed hereunder, as follows:

Net carrying capacity in pounds.	License fee per mile.
2001 to 3999	1c
4000 to 5999	2c
6000 to 7999	3c
8000 to 9999	5c
10,000 to 11,999	8c

Any owner of a commercial motor vehicle or trailer who operates or permits the same to be operated on the public highways of this State without having first registered such vehicle or trailer as provided for in this act, or any such owner who operates or permits to be operated a commercial motor vehicle or trailer that is loaded with a load weighing over ten per cent in excess of its registered carrying capacity, or any such owner who shall fail or refuse to keep mileage record, or who shall fail or refuse to submit the statements accompanied by the proper fee as provided for in this act, shall be deemed guilty of a misdemeanor and punished by fine not exceeding \$200 for each offense.

It Bakes the Finest Bread You Ever Ate

RED STAR
Detroit Vapor Oil Store

Most women think an oil stove does not deliver enough heat for all kinds of baking. That is because they have never seen this oil stove.

No matter what you may think, here is one oil stove that will cook or bake anything perfectly.

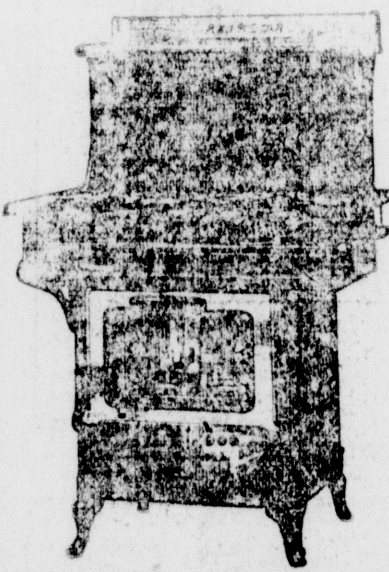

It is entirely different. The Red Star burners are the secret of its remarkable efficiency. They are wickless. They generate gas from kerosene or gasoline. They leave no odor or smoke and give 19 hours of perfect heat from each gallon of fuel.

This perfected burner makes the Red Star equal to any city gas-range—in efficiency, cleanliness and in economy.

Come in and see it in operation. It will give you a new understanding of what you can accomplish with this oil stove.

PLAIN BIBLE PREACHING

Political and secular subjects will not engage this preacher's attention. Believing in the gospel as the power to save men, knowing his responsibility before God for what he preaches, he will seek to declare the simple, positive New Testament plan of salvation. Consequently, there will be no effort made at entertainment, only in so far as the preaching of the Ancient Gospel and an Apostolic Simplicity of Worship will entertain honest and earnest hearers. The singing will be congregational and spiritual without mechanical assistance as these Christians believe that their hearts and voices are sufficient in singing praises to God.

WHAT MUST I DO TO BE SAVED?

This question will be answered each night just like it is answered in the Book of Acts by the Apostles of Christ. In so doing our aim will be to emphasize the supreme authority of God's Word.

Services 8:15 each evening—ten days only—You are cordially invited, will receive a hearty welcome and kind treatment.

All services absolutely free—No collections will be taken.
